Report of Independent Auditors

The Board of Directors and Shareholder
Argo Re, Ltd. and subsidiaries

We have audited the accompanying consolidated financial statements of Argo Re, Ltd. and subsidiaries, which comprise the consolidated balance sheets as of December 31, 2018 and 2017, and the related consolidated statements of income, comprehensive income, changes in shareholders' equity and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Argo Re, Ltd. and subsidiaries at December 31, 2018 and 2017, and the consolidated results of their operations and their cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

Building a better working world

Required Supplementary Information

U.S. generally accepted accounting principles require that the incurred and paid claims development preceding the most recent year and the average annual percentage payout of incurred claims disclosed in Note 5 (pages 28-45) be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Financial Accounting Standards Board (FASB) who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

ARGO RE, LTD.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Business and Significant Accounting Policies

Business

Argo Re, Ltd. (“Argo Re,” “we” or the “Company”) is a Bermuda-based specialty property and casualty reinsurance company. Argo Re is also a direct underwriter of international specialty property and casualty insurance products through the operations of its subsidiaries, primarily Argo Group US, Inc. (“Argo Group US”) and Argo Underwriting Agency Limited (“Syndicate 1200”). Syndicate 1200 products are underwritten by Argo Underwriting Agency Limited based in London, on behalf of one underwriting syndicate under the Lloyd’s of London (“Lloyd’s”) global franchise.

Argo Re is a wholly-owned subsidiary of Argo Group International Holdings, Ltd. (“Argo Group” or the “Parent company”).

Effective February 12, 2018, we acquired 100% of the capital stock of ArgoGlobal Insurance Services Inc from Argo Group.

Effective March 5, 2018, we acquired 100% of the capital stock of Ariscom Compagnia di Assicurazioni S.p.A. (“Ariscom”) upon its release from extraordinary administration by the Italian insurance supervisory authority (“IVASS”). The acquisition is being accounted for in accordance with Accounting Standards Codification (“ASC”) 805, “Business Combinations.” See Note 2, “Acquisition of Ariscom,” for additional discussion regarding the acquisition. The Consolidated Financial Statements as of and for the year ended December 31, 2018 and the Notes to the Consolidated Financial Statements reflect the consolidated results of Argo Re and Ariscom commencing on the date of acquisition.

Effective September 25, 2018 we acquired 100% of the capital stock of Ariel Corporate Member Limited ("ACML") from Argo Group to settle a $69.8 million loan made by Argo Re to Argo Group. The additional capital was received as a capital contribution in the amount of $37.6 million.

Basis of Presentation and Use of Estimates

The consolidated financial statements of Argo Re and its subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”). The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. The major estimates reflected in our consolidated financial statements include, but are not limited to, reserves for losses and loss adjustment expenses; reinsurance recoverables, including the reinsurance recoverables allowance for doubtful accounts; estimates of written and earned premiums; reinsurance premium receivable; fair value of investments and assessment of potential impairment; valuation of goodwill and other intangibles and our deferred tax asset valuation allowance. Actual results could differ from those estimates.

Specifically, estimates for reserves for losses and loss adjustment expenses are based upon past claim experience modified for current trends as well as prevailing economic, legal and social conditions. Although management believes that amounts included in the accompanying consolidated financial statements are reasonable, such estimates may be more or less than the amounts ultimately paid when the claims are settled. The estimates are continually reviewed and any changes are reflected in current operating results. Further, the nature of loss exposures involves significant variability due to the nature of the long-tailed payments on certain claims. As such, losses and loss adjustment expenses could vary significantly from the recorded amounts.

The consolidated financial statements include the accounts and operations of Argo Re and its subsidiaries. All material intercompany accounts and transactions have been eliminated. Certain amounts in prior years’ financial statements have been reclassified to conform to the current presentation. Amounts related to trade capital providers, who are third-party capital participants that provide underwriting capital to the Syndicate 1200 segment, are included in the balance sheet. Trade capital providers participate on a quota share basis, assuming 100% of their contractual participation in the underwriting syndicate results and with such results settled on a year of account basis.

We have evaluated our investment in our nine statutory trusts (collectively, the “Trusts”) and one charitable foundation (collectively, the “Foundation”) under the Financial Accounting Standards Board’s (“FASB’s”) provisions for consolidation of variable interest entities under Accounting Standards Codification (“ASC”) Topic 810-10, “Consolidation,” as amended. We determined that the Trusts and Foundation are variable interest entities due to the fact that the Trusts and Foundation do not have sufficient equity to finance their activities without additional subordinate financial support from other parties. We do not have any power to direct the activities that impact the Trusts’ or Foundation’s economic performance. We are not entitled to receive a majority of the residual returns of the Trusts and U.S. charitable foundation. Additionally, we are not responsible for absorbing the majority of the expected losses of the Trusts or U.S. charitable foundation; therefore, we are not the primary beneficiary and, accordingly, the Trusts and U.S. charitable foundation are not included in our consolidated financial statements.

We have used a series of special purpose reinsurance companies to provide reinsurance coverage through a series of transactions, including insurance-linked securities. Under the provisions of ASC Topic 810-10, these reinsurance companies are variable interest entities. However, we do not have a variable interest in these entities, and therefore are not required to consolidate them in our consolidated financial statements.

Cash

Cash consists of cash deposited in banks, generally in concentration and operating accounts. Interest-bearing cash accounts are classified as short-term investments.

Investments

Investments in fixed maturities at December 31, 2018 and 2017 include bonds and structured securities. Equity securities include common stocks, preferred stocks and mutual funds. Other investments consist of foreign regulatory deposits, hedge funds, private equity funds, private equity direct investments, and voluntary pools. Short-term investments consist of money market funds, certificates of deposit, bonds, sovereign debt and interest-bearing cash accounts. Investments maturing in less than one year are classified as short-term investments in our consolidated financial statements.

The amortized cost of fixed maturity securities is adjusted for amortization of premiums and accretion of discounts. This amortization or accretion is included in “Net investment income” in our Consolidated Statements of Income.

For the structured securities portion of the fixed maturity securities portfolio, we recognize income using a constant effective yield based on anticipated prepayments and the estimated economic life of the securities. Premium or discount on high investment grade securities (rated AA or higher) is amortized into income using the retrospective method. Premium or discount on lower grade securities (rated less than AA) is amortized into income using the prospective method.

Our investments in fixed maturities are considered available-for-sale and are carried at fair value. As available-for-sale investments, changes in the fair value fixed maturities are not recognized in income during the period, but rather are recognized as a separate component of shareholders’ equity until realized. Fair value of these investments is estimated using prices obtained from third-party pricing services, where available. For securities where we were unable to obtain fair values from a pricing service or broker, fair values were estimated using information obtained from investment advisors. We performed several processes to ascertain the reasonableness of these investment values by i) obtaining and reviewing internal control reports for our service providers that obtain fair values from third-party pricing services, ii) discussing with our investment managers their process for reviewing and validating pricing obtained from outside services and obtaining values for all securities from our investment managers and iii) comparing the security pricing received from the investment managers with the prices used in the consolidated financial statements and obtaining additional information for variances that exceeded a certain threshold. As of December 31, 2018, investments we hold for which we did not receive a fair value from a pricing service or broker accounted for less than 1% of our investment portfolio. The actual value at which these securities could actually be sold or settled with a willing buyer or seller may differ from our estimated fair values depending on a number of factors including, but not limited to, current and future economic conditions, quantity sold or settled, presence of an active market and availability of a willing buyer or seller. The cost of securities sold is based on the specific identification method.

Our investments in equity securities are carried at fair value. Beginning with the adoption of Accounting Standards Update ("ASU") 2016-01, effective January 1, 2018, the changes in the fair value of equity securities are now included in "Net realized investment (losses) gains" in consolidated statements of income. See "Recently Issued Accounting Pronouncements" below for further information about ASU 2016-01 and the related impact on our consolidated financial statements.

Changes in the value of other investments consisting of hedge funds, private equity funds, private equity direct investments and voluntary pools are principally recognized to income during the period using the equity method of accounting. Our foreign regulatory deposits are assets held in trust in jurisdictions where there is a legal and regulatory requirement to maintain funds locally in order to protect policyholders. Lloyd’s is the appointed investment manager for the funds. The underlying assets are invested in government securities, agency securities and corporate bonds whose values are obtained from Lloyd’s. Foreign currency future contracts held by us are valued by our counterparties using market driven foreign currency exchange rates.

We regularly evaluate our investments for other-than-temporary impairment. For fixed maturity securities, the evaluation for a credit loss is generally based on the present value of expected cash flows of the security as compared to the amortized book value. For structured securities, frequency and severity of loss inputs are used in projecting future cash flows of the securities. Loss frequency is measured as the credit default rate, which includes such factors as loan-to-value ratios and credit scores of borrowers. Loss severity includes such factors as trends in real estate values and proceeds at foreclosure. We also recognize other-than-temporary losses on our fixed maturity securities that we intend to sell.

All investment balances include amounts relating to trade capital providers. The results of operations and other comprehensive income exclude amounts relating to trade capital providers. Trade capital providers' participation in the syndicate results are included in reinsurance recoverable for ceded losses and reinsurance payable for ceded premiums.

Receivables

Premiums receivable, representing amounts due from insureds, are presented net of an allowance for doubtful accounts. The allowances for doubtful accounts were $4.0 million and $3.2 million at December 31, 2018 and 2017, respectively. Premiums receivable include amounts relating to the trade capital providers' quota share.

Reinsurance recoverables represent amounts of paid losses and loss adjustment expenses, case reserves and incurred but not reported ("IBNR") amounts ceded to reinsurers under reinsurance treaties. Reinsurance recoverables also reflect amounts that are due from trade capital providers. Reinsurance recoverables are presented in our Consolidated Balance Sheets net of an allowance for doubtful accounts of $1.8 million and $2.1 million at December 31, 2018 and 2017 (see Note 3, "Reinsurance" for related disclosures).

An estimate of amounts that are likely to be charged off is established as an allowance for doubtful accounts as of the balance sheet date. Our estimate includes specific insured and reinsurance balances that are considered probable to be charged off after all collection efforts have ceased and in accordance with historical write-off trends based on aging categories. Premiums receivable and reinsurance recoverables on paid losses written off, net of recoveries against the allowance for doubtful accounts or directly to the income statement are as follows:

	Year Ended December 31,	
(in millions)	2018	2017
Premiums receivable	$ 2.1	$ 1.5
Reinsurance recoverables	—	—
Net written off	$ 2.1	$ 1.5

Recoveries occur when subsequent collection or litigation results in the receipt of amounts previously written off. Amounts recovered are applied against the bad debt expense account.

Earned Premiums

Premium revenue is generally recognized ratably over the policy period. Premiums that have yet to be earned are reported as "Unearned premiums" in our Consolidated Balance Sheets.

Unearned premium balances include cessions to reinsurers including trade capital providers, while the earned premium recognized in our Consolidated Statements of Income excludes amounts relating to trade capital providers. The trade capital providers' quota share amount is included in "Ceded reinsurance payable, net".

Assumed reinstatement premiums that reinstate coverage are written and earned at the time the associated loss event occurs. The original premium is earned over the remaining exposure period of the contract. Reinstatement premiums are estimated based upon contract terms for reported losses and estimated for incurred but not reported losses

Retrospectively Rated Policies

We have written a number of workers compensation, property and other liability policies that are retrospectively rated. Under this type of policy, the policyholder or cover holder may be entitled, subsequent to coverage expiration, to a refund or may owe additional premiums based on the amount of losses incurred under the policy. The retrospective premium adjustments on certain policies are limited to a minimum or maximum premium adjustment, which is calculated as a percentage of the standard amount of premium charged during the life of the policy. Accrued retrospectively rated premiums have been determined based on estimated ultimate loss experience of the individual policyholder accounts. The estimated liability for return of premiums under retrospectively rated policies is included in "Unearned premiums" in our Consolidated Balance Sheets and was $6.9 million and $7.9 million at December 31, 2018 and 2017, respectively. The estimated amount included in premiums receivables for additional premiums due under retrospectively rated policies was $0.4 million and $0.1 million at December 31, 2018 and 2017, respectively.

Deferred Acquisition Costs

Policy acquisition costs, which include commissions, premium taxes, fees and certain other costs of underwriting policies, are deferred, when such class of policies are profitable, and amortized over the same period in which the related premiums are earned. To qualify for capitalization, the policy acquisition cost must be directly related to the successful acquisition of an insurance contract. Anticipated investment income is considered in determining whether the deferred acquisition costs are recoverable and whether a premium deficiency exists. We continually review the methods of making such estimates and establishing the deferred costs with any adjustments made in the accounting period in which the adjustment arose.

The 2018 and 2017 net amortization of policy acquisition costs will not equal the change in our Consolidated Balance Sheets as the trade capital providers' share is not reflected in our Consolidated Statements of Income and differences arise from foreign currency exchange rates applied to deferred acquisition costs which are treated as a nonmonetary asset.

Reserves for Losses and Loss Adjustment Expenses

Liabilities for unpaid losses and loss adjustment expenses include the accumulation of individual case estimates for claims reported as well as estimates of IBNR claims and estimates of claim settlement expenses. Reinsurance recoverables on unpaid claims and claim expenses represent estimates of the portion of such liabilities that will be recoverable from reinsurers. Amounts recoverable from reinsurers are recognized as assets at the same time and in a manner consistent with the unpaid claims liabilities associated with the reinsurance policy.

Reinsurance

In the normal course of business, our insurance and reinsurance subsidiaries cede risks above certain retention levels to other insurance companies. Reinsurance recoverables include claims we paid and estimates of unpaid losses and loss adjustment expenses that are subject to reimbursement under reinsurance and retrocessional contracts. The method for determining reinsurance recoverables for unpaid losses and loss adjustment expenses involves reviewing actuarial estimates of gross unpaid losses and loss adjustment expenses to determine our ability to cede unpaid losses and loss adjustment expenses under our existing reinsurance contracts. This method is continually reviewed and updated and any resulting adjustments are reflected in earnings in the period identified. Reinsurance premiums, commissions and expense reimbursements are accounted for on a basis consistent with those used in accounting for the original policies issued and the term of the reinsurance contracts. Amounts recoverable from reinsurers for losses and loss adjustment expenses for which our insurance and reinsurance subsidiaries have not been relieved of their legal obligations to the policyholder are reported as assets.

Goodwill and Intangible Assets

Goodwill and intangible assets are allocated to the segment in which the results of operations for the acquired company are reported. Intangible assets with a finite life are amortized over the estimated useful life of the asset. Goodwill and intangible assets with an indefinite useful life are not amortized. Goodwill and intangible assets are tested for impairment on an annual basis or more frequently if events or changes in circumstances indicate that the carrying amount may not be recoverable.

We perform our goodwill impairment test on the first day of the fourth quarter of each year, or October 1 of each year. As a result of the reviews performed on each of the entity's reporting units for the three years ended December 31, 2018, 2017 and 2016, the Company determined that the estimated fair value substantially exceeded the respective carrying value of its reporting units for those years and goodwill was not impaired.

In 2018, we recorded \$15.6 million of goodwill as a result of the acquisition of Ariscom. See Note 2, "Acquisition of Ariscom" for further discussion.

Other indefinite-lived intangible assets and intangible assets with finite lives were also reviewed for impairment as of October 1, 2018. As a result of the reviews performed on each of the entity's reporting units for the two years ended December 31, 2018 and 2017, the Company determined that the other indefinite-lived intangible assets and finite-lived intangible assets were not impaired.

The following table presents our intangible assets and accumulated amortization at December 31:

(in millions)	December 31, 2018 Gross Carrying Amount	December 31, 2018 Accumulated Amortization	December 31, 2017 Gross Carrying Amount	December 31, 2017 Accumulated Amortization
Lloyd's capacity	$ 60.5	n/a	$ 60.5	n/a
Distribution network	45.5	45.2	45.5	43.3
Additional Lloyd's capacity	4.8	4.8	4.8	4.8
Other	1.4	1.3	1.4	1.2
	$ 112.2	$ 51.3	$ 112.2	$ 49.3

The weighted average useful life by category at December 31, 2018 was 10.3 years for the distribution network, 11.0 years for other. As of December 31, 2018, the additional Lloyd's capacity was fully amortized. The weighted average useful life for all categories was 10.3 years at December 31, 2018.

During the years ended December 31, 2018 and 2017, amortization expense was $2.0 million and $4.7 million, respectively, and is included in “Underwriting, acquisition and insurance expenses” in our Consolidated Statements of Income.

The estimated amortization expense for the years ended December 31, 2019 is $0.4 million.

Property and Equipment

Property and equipment used in operations, including certain costs incurred to develop or obtain computer software for internal use, are capitalized and carried at cost less accumulated depreciation and are reported in “Other assets” in our Consolidated Balance Sheets. Depreciation is calculated using a straight-line method over the estimated useful lives of the assets, generally three to thirty nine years. The accumulated depreciation for property and equipment was $135.5 million and $115.1 million at December 31, 2018 and 2017, respectively. The net book value of our property and equipment at December 31, 2018 and 2017 was $145.8 million and $140.6 million, respectively. The depreciation expense at December 31, 2018 and 2017 was $24.4 million and $21.5 million, respectively.

Derivative Instruments

We enter into short-term, currency spot and forward contracts to mitigate foreign exchange rate exposure in our non-U.S. Dollar denominated fixed maturity investments. The forward contracts used are typically thirty to ninety days and are renewed as long as the non-U.S. Dollar denominated fixed maturity investments are held in our portfolio. Forward contracts are designated as hedges for accounting purposes. We also enter into foreign currency exchange forward contracts to manage currency exposure on losses related to global catastrophe events. These foreign currency forward contracts are carried at fair value in our Consolidated Balance Sheets in “Other liabilities” and “Other assets” at December 31, 2018 and 2017, respectively. The realized and unrealized gains and losses are included in “Net realized investment and other gains” in our Consolidated Statements of Income.

Share-Based Payments

Argo Group has various share-based payment plans for which a portion of the related compensation expense is charged to Argo Re and its subsidiaries based on the legal entity or business unit to which each award recipient is assigned. Compensation expense for share-based payments is recognized based on the measurement-date fair value for awards that will settle in shares of Argo Group’s capital stock. Awards that are expected to be settled in cash are accounted for as liability awards, resulting in the fair value of the award being measured at each reporting date until the award is exercised, forfeited or expires unexercised. Compensation expense for awards that are settled in equity of Argo Group are recognized on a straight line pro rata basis over the vesting period. Compensation expense for awards that are settled in cash are recognized on the accelerated recognition method over the award’s vesting period. Share-based compensation expense is included in “Underwriting, acquisition and insurance expenses” in our Consolidated Statements of Income was $11.3 million and $6.0 million for the years ended December 31, 2018 and 2017, respectively.

Foreign Currency Exchange Gain (Loss)

The U.S. Dollar is the functional currency of all but three of our foreign operations. Monetary assets and liabilities in foreign operations that are denominated in foreign currencies are revalued at the exchange rates in effect at the balance sheet date. The resulting gains and losses from changes in the foreign exchange rates are reflected in net income. Revenues and expenses denominated in foreign currencies are translated at the prevailing exchange rate during the period with the resulting foreign exchange gains and losses included in net income for the period. In the case of our foreign currency denominated available-for-sale investments, the change in exchange rates between the local currency and our functional currency at each balance sheet date represents an unrealized appreciation or depreciation in value of these securities and is included as a component of accumulated other comprehensive income (loss).

Translation gains and losses related to our operations in Brazil, Malta and Italy are recorded as a component of shareholders' equity in our Consolidated Balance Sheets. At December 31, 2018 and 2017, the foreign currency translation adjustments were a loss of $22.4 million and $19.0 million, respectively.

Income Taxes

On December 22, 2017, the Tax Cuts and Jobs Act ("TCJA") was enacted. Among many changes resulting from TCJA, the new law (i) reduces the corporate tax rate to 21% effective January 1, 2018, (ii) eliminates the corporate alternative minimum tax for tax years beginning after December 31, 2017, (iii) allows businesses to immediately expense, for tax purposes, the cost of new investments in certain qualified depreciable assets, (iv) modifies the computation of loss reserve discounting for tax purposes, (v) modifies the recognition of income rules by requiring the recognition of income for certain items no later than the tax year in which an item is taken into account as income on an applicable financial statement and (vi) significantly modifies the United States international tax system.

Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in net income in the period in which the change is enacted.

We recognize potential accrued interest and penalties within our global operations in "Interest expense" and "Underwriting, acquisition and insurance expenses," respectively, in our Consolidated Statements of Income related to unrecognized tax benefits.

Supplemental Cash Flow Information

Interest paid and income taxes paid (recovered) were as follows:

	For the Years Ended December 31,	
(in millions)	2018	2017
Senior unsecured fixed rate notes	$ 9.3	$ 9.3
Junior subordinated debentures	13.8	7.1
Other indebtedness	2.5	2.4
Revolving credit facility	—	0.3
Total interest paid	$ 25.6	$ 19.1
Income taxes paid	$ 20.8	$ 10.8
Income taxes recovered	—	(0.3)
Income taxes paid, net	$ 20.8	$ 10.5

Non cash activities.

Effective September 25, 2018 we acquired 100% of the capital stock of Ariel Corporate Member Limited ("ACML") from Argo Group to settle a $69.8 million loan made by Argo Re to Argo Group. The additional capital was received as a capital contribution in the amount of $37.6 million. Our Consolidated Statements of Cash Flows contains a reconciliation of net income to "Net cash (used) provided by operating activities" which includes, among other things, certain adjustments for non-cash items. Net cash (used) provided by operating activities includes, among other things, certain adjustments for non-cash items. For the year ended December 31, 2018, the adjustment for (Receivable from) payable to parent, net includes a $69.8 million non-cash item related to the settlement.

In 2018, Argo Re paid dividends to Argo Group of $36.5 million to settle an intercompany balance that Argo Group owed Argo Re which resulted in a non-cash transaction.

In 2017, we loaned $120.0 million to Argo Group as shown in "Amount borrowed by parent" within the investing activities section of the Consolidated Statements of Cash Flows. For the year ended December 31, 2017, the adjustment for "(Receivable from) payable to parent, net" includes a $134.4 million non-cash item related to the settlement of the $120.0 million loan, as well as other balances, due from Argo Group through the transfer of ARL.

Recently Issued Accounting Pronouncements

On August 28, 2018, the Financial Accounting Standards Board ("FASB") issued ASU 2018-13, "Fair Value Measurement (Topic 820)." ASU 2018-13 eliminates, adds and modifies certain disclosure requirements on fair value measurements. The guidance is effective for fiscal years beginning after December 15, 2019, including interim periods within the year of adoption. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and the narrative description of measurement uncertainty are applied prospectively for only the most recent interim or annual period presented in the initial fiscal year adoption. All other amendments are applied retrospectively to all periods presented upon their effective date. Early adoption is permitted. We are currently in the process of evaluating the impact that the adoption of the ASU will have on our financial disclosures.

On February 14, 2018, the FASB issued ASU 2018-02, "Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income" that allows a reclassification from accumulated other comprehensive income ("AOCI") to retained earnings of the stranded tax effects in AOCI resulting from the Tax Cuts and Jobs Act ("TCJA"). Current guidance required the effect of a change in tax laws or rates on deferred tax balances to be reported in income from continuing operations in the accounting period that includes the period of enactment, even if the related income tax effects were originally charged or credited directly to AOCI. The amount of the reclassification would include the effect of the change in the U.S. federal corporate income tax rate on the gross deferred tax amounts and related valuation allowances, if any, at the date of the enactment of TCJA related to items in AOCI. The updated guidance is effective for reporting periods beginning after December 15, 2018 and is to be applied retrospectively to each period in which the effect of the TCJA related to items remaining in AOCI are recognized or at the beginning of the period of adoption. Early adoption is permitted, including adoption in any interim period for public business entities for reporting periods for which financial statements have not yet been issued. We have adopted the guidance effective January 1, 2018. The adoption of this ASU does not affect the Company's results of operations, financial position, or liquidity. As a result of adopting this ASU, we reclassified $20.7 million of previously recognized deferred taxes from accumulated other comprehensive income into retained earnings as of January 1, 2018.

On December 22, 2017, the SEC staff issued Staff Accounting Bulletin No. 118 (SAB 118) which provides guidance on accounting for the effects of the TCJA. We have adopted this guidance within our 2017 consolidated financial statements.

In May 2017, the FASB issued ASU 2017-09, "Compensation – Stock Compensation" (Topic 718): Scope of Modification Accounting. ASU 2017-9 clarifies when changes to the terms or conditions of a share-based payment award must be accounted for as modifications. The guidance requires entities to apply the modification accounting guidance if the value, vesting conditions or classification of the award changes. In addition to the disclosures about modifications that are required, the entities are required to affirmatively disclose whether compensation expense has changed. The ASU will be applied prospectively and is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. We adopted this ASU effective January 1, 2018. The adoption of this ASU did not have a material impact on our financial results and disclosures.

In January 2017, the FASB issued ASU 2017-04, "Intangibles – Goodwill and Other" (Topic 350). ASU 2017-4 eliminates the requirement to calculate the implied fair value of goodwill that is done in Step 2 of the current goodwill impairment test to measure a goodwill impairment loss. Instead, entities will record an impairment loss based on the excess of a reporting unit's carrying amount over its fair value. The guidance will be applied prospectively and is effective for annual and interim impairment tests performed in periods beginning after December 15, 2019. We do not anticipate that this ASU will have a material impact on our financial results or disclosures.

In January 2017, the FASB issued ASU 2017-01, "Business Combinations" (Topic 805). ASU 2017-01 clarifies the definition of a business to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The guidance specifies the minimum inputs and processes required to meet the definition of a business. The guidance is effective for annual periods beginning after December 15, 2017, and interim periods within the year of adoption. We adopted this ASU effective January 1, 2018. The adoption of this ASU did not have a material impact on our financial results and disclosures.

In August 2016, the FASB issued ASU 2016-15, "Classification of Certain Cash Receipts and Cash Payments (Topic 230)". ASU 2016-15 will reduce diversity in practice on how eight specific cash receipts and payments are classified on the statement of cash flows. The ASU is effective for fiscal years beginning after December 15, 2017, including interim periods within the year of adoption. This ASU impacts how we present the distributions received from equity method investees in our statement of cash flows. We adopted this ASU effective January 1, 2018. We have elected to adopt the cumulative earnings approach to classify distributions received from equity method investees, which we adopted retrospectively. This ASU did not have a material impact on the classification of specific cash receipts and payments within the statement.

In June 2016, the FASB issued ASU 2016-13, "Measurement of Credit Losses on Financial Instruments" (Topic 326). ASU 2016-13 requires organizations to estimate credit losses on certain types of financial instruments, including receivables and available-for-sale debt securities, by introducing an approach based on expected losses. The expected loss approach will require entities to incorporate considerations of historical information, current information and reasonable and supportable forecasts. The guidance is effective for fiscal years beginning after December 15, 2019, including interim periods within the year of adoption. The guidance requires a modified retrospective transition method and early adoption is permitted. We are currently evaluating the impact that the adoption of the ASU will have on our financial results and disclosures, but do not anticipate that any such potential impact would be material.

In February 2016, the FASB issued ASU 2016-02, "Leases" (Topic 842). ASU 2016-02 requires organizations that lease assets to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases. Additionally, the ASU modifies current guidance for lessors' accounting. In July 2018, the FASB issued Accounting Standards Update No. 2018-11 (ASU 2018-11): Leases (Topic 842): Targeted Improvements, which provides for an alternative transition method by allowing entities to initially apply the new leases standard at the adoption date (such as January 1, 2019) and recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption (comparative periods presented in the financial statements will continue to be in accordance with current GAAP (Topic 840, Leases). The standard is effective for annual and interim periods beginning after December 15, 2018, with earlier application permitted.

We have entered into operating leases for office space and certain other assets. We adopted the new standard on the effective date of January 1, 2019. We have elected to apply the following practical expedients:

- We have elected to adopt this standard using the option transition method, which allows companies to continue applying the guidance under the lease standard in effect at that time in the comparative periods presented in the consolidated financial statements. Companies that elect this option would record a cumulative-effect adjustment to the opening balance of retained earnings on the date of adoption.

- We have elected the "package of practical expedients", which permits us not to reassess under the new standard our prior conclusion about lease identification, lease classification and initial direct costs.
- For certain asset classes, we have elected the practical expedient which allows us not to separate non-lease components from lease components and instead to account for each separate lease component and the non-lease components associated with that lease component as a single lease component.
- Where we are the lessor, we have elected the practical expedient which permits us to not separate non-lease components from the associated lease components if the non-lease components otherwise would be accounted for in accordance with the new revenue standard.

We have elected to not apply the practical expedient which allows the use of hindsight in determining the lease term and in assessing impairment of the entity's right-of-use assets. We are continuing to evaluate the remaining practical expedients as they apply to our lease population.

We have substantially completed our assessment of the standard as well as implementation of our leasing software, including data upload and test procedures. We continue to finalize our calculations, including our discount rate assumptions, related to the new standard. We are also continuing to establish new processes and internal controls that may be required to comply with the new lease accounting and disclosure requirements set by the new standard.

Although we continue to assess the impact of the standard on our consolidated financial statements, we believe adoption and implementation will result in an increase to assets and liabilities, as well as additional disclosures. We expect the addition of approximately $116.2 million to $142.0 million in operating lease right of use assets and lease liabilities, using preliminary discount rates of 1.19% to 5.07%**.** We do not expect a material impact on our consolidated statement of income or cash flows.

In January 2016, the FASB issued ASU 2016-01, "Recognition and Measurement of Financial Assets and Financial Liabilities" (Subtopic 825-10). ASU 2016-01 requires equity investments that are not consolidated or accounted for under the equity method of accounting to be measured at fair value with changes in fair value recognized in net income. This ASU also requires us to assess the ability to realize our deferred tax assets related to an available-for-sale debt security in combination with our other deferred tax assets. The ASU is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. We have adopted this ASU effective January 1, 2018. Upon adoption of this ASU, cumulative net unrealized gains on equity securities of $117.3 million, net of deferred income taxes, were reclassified from accumulated other comprehensive income into retained earnings as of January 1, 2018. The change in the fair value of the noted investments is now included in "Net realized investment gains" in our consolidated statements of income. The standard increases the volatility of the results reported in our consolidated statements of income, resulting from recognizing the change in the fair value of our equity investments in our consolidated statements of income.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers" (Topic 606), which replaces most existing U.S. GAAP revenue recognition guidance and permits the use of either the retrospective or cumulative effect transition method. In August 2015, "Deferral of the Effective Date" (Topic 606), deferred the effective date of this guidance to interim and annual reporting periods beginning after December 15, 2017. We adopted this ASU effective January 1, 2018. The adoption of this standard did not have a material impact on our consolidated financial results.

2. Acquisition of Ariscom

Effective March 5, 2018, we acquired 100% of the capital stock of Ariscom upon its release from extraordinary administration by IVASS. We injected an amount of capital into Ariscom necessary to meet certain regulatory requirements and thresholds. As part of this capital infusion, we have become the sole shareholder of Ariscom.

The acquisition is being accounted for in accordance with ASC 805, "Business Combinations." Purchase accounting, as defined by ASC 805, requires that the assets acquired and liabilities assumed be recognized at their fair values as of the acquisition date. The fair values disclosed herein were determined based on management's best estimates and the finalization of certain valuation analyses. Ariscom's financial position, results of operations, and cash flows were not material to our consolidated financial results as of and for the year ended December 31, 2018.

The excess of the purchase price over the fair value of the net assets acquired was $15.6 million and has been allocated to goodwill. Goodwill is not deductible for tax purposes. The acquisition provides Argo Group with an in-market Italian insurance platform and access to Ariscom's client network throughout Italy, with longer-term opportunities to expand our presence in continental Europe, particularly Spain and Portugal. There were no identifiable intangible assets recognized as part of the acquisition.

3. Investments

Included in "Total investments" in our Consolidated Balance Sheets at December 31, 2018 and December 31, 2017 is $133.4 million and $130.8 million, respectively, of assets managed on behalf of the trade capital providers, who are third-party participants that provide underwriting capital to the operations of Syndicate 1200.

Fixed Maturities

The amortized cost, gross unrealized gains, gross unrealized losses and fair value in fixed maturity investments were as follows:

December 31, 2018

(in millions)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Fixed maturities				
U.S. Governments	$ 240.9	$ 0.2	$ 4.9	$ 236.2
Foreign Governments	224.1	0.5	7.8	216.8
Obligations of states and political subdivisions	236.7	4.3	1.2	239.8
Corporate bonds	1,808.7	7.5	58.7	1,757.5
Commercial mortgage-backed securities	205.3	0.7	3.2	202.8
Residential mortgage-backed securities	413.1	3.4	5.7	410.8
Asset-backed securities	173.6	0.4	1.2	172.8
Collateralized loan obligations	226.7	0.5	3.5	223.7
Total fixed maturities	$ 3,529.1	$ 17.5	$ 86.2	$ 3,460.4

December 31, 2017

(in millions)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Fixed maturities				
U.S. Governments	$ 358.9	$ 0.2	$ 4.7	$ 354.4
Foreign Governments	222.5	6.7	2.4	226.8
Obligations of states and political subdivisions	327.7	9.3	1.0	336.0
Corporate bonds	1,427.3	24.3	12.6	1,439.0
Commercial mortgage-backed securities	136.3	0.1	1.5	134.9
Residential mortgage-backed securities	309.3	2.8	2.7	309.4
Asset-backed securities	159.0	0.7	0.8	158.9
Collateralized loan obligations	222.6	5.9	0.6	227.9
Total fixed maturities	$ 3,163.6	$ 50.0	$ 26.3	$ 3,187.3

Contractual Maturity

The amortized cost and fair values of fixed maturity investments as of December 31, 2018, by contractual maturity, were as follows:

(in millions)	Amortized Cost	Fair Value
Due in one year or less	$ 270.5	$ 266.3
Due after one year through five years	1,517.0	1,486.2
Due after five years through ten years	581.5	557.1
Thereafter	141.4	140.7
Structured securities	1,018.7	1,010.1
Total	$ 3,529.1	$ 3,460.4

The expected maturities may differ from the contractual maturities because debtors may have the right to call or prepay obligations.

Other Invested Assets

Details regarding the carrying value and unfunded investment commitments of the other invested assets portfolio as of December 31, 2018 and 2017 were as follows:

December 31, 2018

(in millions)	Carrying Value	Unfunded Commitments
Investment Type		
Hedge funds	$ 120.6	$ —
Private equity	211.8	120.5
Long only funds	153.0	—
Other	4.4	—
Total other investments	$ 489.8	$ 120.5

December 31, 2017		
(in millions)	Carrying Value	Unfunded Commitments
Investment Type		
Hedge funds	$ 163.6	$ —
Private equity	179.2	129.9
Long only funds	185.0	—
Other	4.3	—
Total other investments	$ 532.1	$ 129.9

The following describes each investment type:

- **Hedge funds:** Hedge funds include funds that primarily buy and sell stocks including short sales, multi-strategy credit, relative value credit and distressed credit.

- **Private equity:** Private equity includes buyout funds, real asset/infrastructure funds, credit special situations funds, mezzanine lending funds and direct investments and strategic non-controlling minority investments in private companies that are principally accounted for using the equity method of accounting.

- **Long only funds:** Our long only funds include a fund that primarily owns international stocks and funds that primarily own investment-grade corporate and sovereign fixed income securities.

- **Other investments:** Other include participation in investment pools.

Unrealized Losses and Other-than-temporary Impairments

An aging of unrealized losses on our investments in fixed maturities below:

December 31, 2018	Less Than One Year		One Year or Greater		Total	
(in millions)	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Fixed maturities						
U.S. Governments	$ 28.2	$ 0.2	$ 173.0	$ 4.7	$ 201.2	$ 4.9

Total fixed maturities	$ 1,514.3	$ 55.3	$ 1,105.3	$ 30.9	$ 2,619.6	$ 86.2

December 31, 2017	Less Than One Year		One Year or Greater		Total	
(in millions)	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Fixed maturities						
U.S. Governments	$ 253.1	$ 1.6	$ 83.7	$ 3.1	$ 336.8	$ 4.7
Foreign Governments	168.7	1.9	35.9	0.5	204.6	2.4
Obligations of states and political subdivisions	33.3	0.4	22.4	0.6	55.7	1.0
Corporate bonds	588.3	9.3	77.7	3.3	666.0	12.6
Commercial mortgage-backed securities	58.2	0.4	37.8	1.1	96.0	1.5
Residential mortgage-backed securities	164.4	1.6	52.4	1.1	216.8	2.7
Asset-backed securities	85.4	0.4	31.9	0.4	117.3	0.8
Collateralized loan obligations (1)	34.6	0.6	0.9	—	35.5	0.6
Total fixed maturities	$1,386.0	$ 16.2	$ 342.7	$ 10.1	$1,728.7	$ 26.3

(1) Unrealized losses one year or greater are less than $0.1 million.

We regularly evaluate our investments for other-than-temporary impairment. For fixed maturity securities, the evaluation for a credit loss is generally based on the present value of expected cash flows of the security as compared to the amortized book value. For structured securities, frequency and severity of loss inputs are used in projecting future cash flows of the securities. Loss frequency is measured as the credit default rate, which includes such factors as loan-to-value ratios and credit scores of borrowers. We also recognize other-than-temporary losses on fixed maturity securities that we intend to sell. Effective January 1, 2018, the Company adopted ASU 2016-1. As a result, changes in the fair value of equity securities are recognized in net realized investment gains in the Consolidated Statement of Income.

We hold a total of 9,241 securities, of which 3,113 were in an unrealized loss position for less than one year and 1,267 were in an unrealized loss position for a period one year or greater as of December 31, 2018. Unrealized losses greater than twelve months on fixed maturities were the result of a number of factors, including increased credit spreads, foreign currency fluctuations and higher market yields relative to the date the securities were purchased, and for structured securities, by the performance of the underlying collateral, as well. In considering whether an investment is other-than-temporarily impaired or not, we also considered that we do not intend to sell the investments and it is unlikely that we will be required to sell the investment before recovery of their amortized cost bases, which may be maturity. We do not consider these investments to be other-than-temporarily impaired at December 31, 2018.

We recognized other-than-temporary losses on our fixed maturities and equity portfolios as follows:

	For the Year Ended December 31,	
(in millions)	2018	2017
Other-than-temporary impairment:		
Obligations of states and political subdivisions	$ —	$ (0.1)
Corporate bonds	(6.6)	(0.7)
Equity securities	—	(1.7)
Other invested assets	(1.0)	—
Other-than-temporary impairment losses	$ (7.6)	$ (2.5)

Net Investment Income and Realized Gains and Losses

Investment income and expenses were as follows:

	For the Years Ended December 31,	
(in millions)	2018	2017
Investment income:		
Interest on fixed maturities	$ 113.3	$ 94.2
Dividends on equity securities	12.5	13.9
Income on alternative investments	19.8	49.5
Income on short-term and other investments	10.5	6.3
Investment income	156.1	163.9
Investment expenses	(20.9)	(23.6)
Net investment income	$ 135.2	$ 140.3

The following table presents our gross realized investment gains (losses) and other:

	For the Year Ended December 31,	
(in millions)	2018	2017
Realized gains on fixed maturities and other		
Fixed maturities	$ 17.7	$ 25.7
Other investments	41.4	24.4
Short-term investments	0.2	0.7
Other assets	—	—
	59.3	50.8
Realized losses on fixed maturities and other		
Fixed maturities	(15.7)	(19.9)
Other investments	(39.2)	(35.2)
Short-term investments	(0.5)	(0.2)
Other-than-temporary impairment losses on fixed maturities	(6.6)	(0.8)
Other-than-temporary impairment losses on other assets	(1.0)	—
	(63.0)	(56.1)
Equity securities [1]		
Net realized gains on equity securities	37.3	46.0
Other-than-temporary impairment losses on equity securities	—	(1.7)
Change in unrealized (losses) gains on equity securities held at the end of the period	(104.9)	—
Net realized (losses) gains on equity securities	(67.6)	44.3
Net realized investment and other (losses) gains	(71.3)	39.0
Income tax benefit (expense)	11.1	(12.1)
After tax	$ (60.2)	$ 26.9

[1] Effective January 1, 2018, we adopted ASU 2016-1. As a result, unrealized gains (losses) at the date of adoption have been reclassified from accumulated other comprehensive income to retained earnings. Additionally, all changes in the fair value of equity securities are recognized in net realized investment gains (losses). Prior periods have not been restated to conform to the current presentation. See Note 2, "Recently Issued Accounting Pronouncements."

Changes in unrealized appreciation (depreciation) related to investments are summarized as follows:

	For the Year Ended December 31,	
(in millions)	2018	2017
Change in unrealized (losses) gains		
Fixed maturities	$ (87.1)	$ 27.1
Equity securities	—	36.1
Other investments	0.1	2.1
Short-term investments	(0.5)	—
Net unrealized investment (losses) gains before income taxes	(87.5)	65.3
Income tax benefit (expense)	13.0	(14.6)
Net unrealized investment (losses) gains, net of income taxes	$ (74.5)	$ 50.7

Foreign Currency Exchange Forward Contracts

We entered into foreign currency exchange forward contracts to manage operational currency exposure on our Canadian dollar ("CAD") investment portfolio, minimize negative impacts to investment portfolio return. and gain exposure to a total return strategy which invests in multiple currencies. The currency forward contracts are carried at fair value in our Consolidated Balance Sheets in "Other liabilities" and "Other assets" at December 31, 2018 and 2017, respectively. The gains and losses are included in "Net realized investment and other gains" in our Consolidated Statements of Income.

The fair value of our foreign currency exchange forward contracts as of December 31 was as follows:

(in millions)	December 31, 2018	December 31, 2017
Asset manager investment exposure	$ (0.3)	$ (0.9)
Total return strategy	(1.6)	0.9
Total	$ (1.9)	$ —

The following table presents our gross investment realized gains and losses on our foreign currency exchange forward contracts:

	For the Year Ended December 31,	
(in millions)	2018	2017
Realized gains		
Operational currency exposure	$ 9.7	$ 12.3
Asset manager investment exposure	11.3	1.5
Total return strategy	22.7	9.0
Gross realized investment gains	43.7	22.8
Realized losses		
Operational currency exposure	(7.9)	(13.8)
Asset manager investment exposure	(8.5)	(11.3)
Total return strategy	(24.5)	(6.7)
Gross realized investment losses	(40.9)	(31.8)
Net realized investment gains (losses) on foreign currency exchange forward contracts	$ 2.8	$ (9.0)

Regulatory Deposits, Pledged Securities and Letters of Credit

We are required to maintain assets on deposit with various regulatory authorities to support our insurance and reinsurance operations. We maintain assets pledged as collateral in support of irrevocable letters of credit issued under the terms of certain reinsurance agreements for reported loss and loss expense reserves. The following table presents our components of restricted assets at December 31:

(in millions)	December 31, 2018	December 31, 2017
Securities on deposit for regulatory and other purposes	$ 172.6	$ 175.3
Securities pledged as collateral for letters of credit	120.9	78.1
Securities and cash on deposit supporting Lloyd's business	376.8	289.8
Total restricted investments	$ 670.3	$ 543.2

Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability, or in the absence of a principal market, the most advantageous market. Market participants are buyers and sellers in the principal (or most advantageous) market that are independent, knowledgeable, able to transact for the asset or liability and willing to transfer the asset or liability.

Valuation techniques consistent with the market and income approach are used to measure fair value. The inputs of these valuation techniques are categorized into three levels.

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that can be accessed at the reporting date. We define actively traded as a security that has traded in the past seven days. We receive one quote per instrument for Level 1 inputs.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. We receive one quote per instrument for Level 2 inputs.
- Level 3 inputs are unobservable inputs. Unobservable inputs reflect our own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available in the circumstances.

We receive fair value prices from third-party pricing services and our outside investment managers. These prices are determined using observable market information such as dealer quotes, market spreads, cash flows, yield curves, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the security's terms and conditions, among other things. We have reviewed the processes used by the third-party providers for pricing the securities, and have determined that these processes result in fair values consistent with GAAP requirements. In addition, we review these prices for reasonableness, and have not adjusted any prices received from the third-party providers as of December 31, 2018 and 2017. A description of the valuation techniques we use to measure assets at fair value is as follows:

Fixed Maturities (Available-for-Sale) Levels 1 and 2:

- United States Treasury securities are typically valued using Level 1 inputs. For these securities, we obtain fair value measurements from third-party pricing services using quoted prices (unadjusted) in active markets at the reporting date.
- United States Government agencies, non-U.S. Government securities, obligations of states and political subdivisions, credit securities and foreign denominated government and credit securities are reported at fair value using Level 2 inputs. For these securities, we obtain fair value measurements from third-party pricing services. Observable data may include dealer quotes, market spreads, yield curves, live trading levels, trade execution data, credit information and the security's terms and conditions, among other things.
- Asset and mortgage-backed securities and collateralized loan obligations are reported at fair value using Level 2 inputs. For these securities, we obtain fair value measurements from third-party pricing services. Observable data may include dealer quotes, market spreads, cash flows, yield curves, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the security's terms and conditions, among other things.

Fixed Maturities Level 3:

- We own term loans that are valued using unobservable inputs.

Equity Securities Level 1: Equity securities are principally reported at fair value using Level 1 inputs. For these securities, we obtain fair value measurements from a third-party pricing service using quoted prices (unadjusted) in active markets at the reporting date.

Equity Securities Level 3: We own certain equity securities that are reported at fair value using Level 3 inputs. The valuation techniques for these securities include the following:

- Fair value measurements for an investment in an equity fund obtained by applying final prices provided by the administrator of the fund, which is based upon certain estimates and assumptions.
- Fair value measurements from a broker and an independent valuation service, both based upon estimates and assumptions.

Other Investments Level 2: Foreign regulatory deposits are assets held in trust in jurisdictions where there is a legal and regulatory requirement to maintain funds locally in order to protect policyholders. Lloyd's is the appointed investment manager for the funds. These assets are invested in short-term government securities, agency securities and corporate bonds and are valued using Level 2 inputs based upon values obtained from Lloyd's.

Short-term Investments: Short-term investments are principally reported at fair value using Level 1 inputs, with the exception of short-term corporate and governmental bonds reported at fair value using Level 2 inputs as described in the fixed maturities section above. Values for the investments categorized as Level 1 are obtained from various financial institutions as of the reporting date.

Transfers Between Level 1 and Level 2 Securities: There were no transfers between Level 1 and Level 2 securities during 2018 or 2017.

Based on an analysis of the inputs, our financial assets measured at fair value on a recurring basis have been categorized as follows:

		Fair Value Measurements at Reporting Date Using		
(in millions)	**December 31, 2018**	**Level 1 (a)**	**Level 2 (b)**	**Level 3 (c)**
Fixed maturities				
U.S. Governments	$ 236.2	$ 226.7	$ 9.5	$ —
Foreign Governments	216.8	—	216.8	—
Obligations of states and political subdivisions	239.8	—	239.8	—
Corporate bonds	1,757.5	—	1,755.3	2.2
Commercial mortgage-backed securities	202.8	—	202.8	—
Residential mortgage-backed securities	410.8	—	410.8	—
Asset-backed securities	172.8	—	172.8	—
Collateralized loan obligations	223.7	—	223.7	—
Total fixed maturities	3,460.4	226.7	3,231.5	2.2
Equity securities	354.5	346.3	—	8.2
Other investments	114.4	—	114.4	—
Short-term investments	478.4	450.0	28.4	—
	$ 4,407.7	$ 1,023.0	$ 3,374.3	$ 10.4

(a) Quoted prices in active markets for identical assets
(b) Significant other observable inputs
(c) Significant unobservable inputs

(in millions)	December 31, 2017	Fair Value Measurements at Reporting Date Using Level 1 (a)	Level 2 (b)	Level 3 (c)
Fixed maturities				
U.S. Governments	$ 354.4	$ 349.9	$ 4.5	$ —
Foreign Governments	226.8	—	226.8	—
Obligations of states and political subdivisions	336.0	—	336.0	—
Corporate bonds	1,439.0	—	1,437.1	1.9
Commercial mortgage-backed securities	134.9	—	134.9	—
Residential mortgage-backed securities	309.4	—	309.4	—
Asset-backed securities	158.9	—	158.9	—
Collateralized loan obligations	227.9	—	227.9	—
Total fixed maturities	3,187.3	349.9	2,835.5	1.9
Equity securities	485.5	481.1	2.1	2.3
Other investments	97.3	—	97.3	—
Short-term investments	344.2	309.4	34.8	—
	$ 4,114.3	$ 1,140.4	$ 2,969.7	$ 4.2

(a) Quoted prices in active markets for identical assets
(b) Significant other observable inputs
(c) Significant unobservable inputs

The fair value measurements in the tables above do not equal “Total investments” on our Consolidated Balance Sheets as they exclude certain other investments that are accounted for under the equity-method of accounting.

A reconciliation of the beginning and ending balances for the investments categorized as Level 3 are as follows:

Fair Value Measurements Using Observable Inputs (Level 3)

(in millions)	Credit Financial	Equity Securities	Total
Beginning balance, January 1, 2018	$ 1.9	$ 2.3	$ 4.2
Transfers into Level 3	—	—	—
Transfers out of Level 3	—	—	—
Total gains or losses (realized/unrealized):			
Included in net income (loss)	—	0.2	0.2
Included in other comprehensive income (loss)	0.3	—	0.3
Purchases, issuances, sales, and settlements:			
Purchases	—	7.3	7.3
Issuances	—	—	—
Sales	—	(1.6)	(1.6)
Settlements	—	—	—
Ending balance, December 31, 2018	$ 2.2	$ 8.2	$ 10.4
Amount of total gains or losses for the year included in net income (loss) attributable to the change in unrealized gains or losses relating to assets still held at December 31, 2018	$ —	$ —	$ —

(in millions)	Credit Financial	Equity Securities	Total
Beginning balance, January 1, 2017	$ 2.0	$ 0.4	$ 2.4
Transfers into Level 3	—	—	—
Transfers out of Level 3	—	—	—
Total gains or losses (realized/unrealized):			
Included in net income (loss)	—	—	—
Included in other comprehensive income (loss)	(0.1)	0.2	0.1
Purchases, issuances, sales, and settlements:			
Purchases	—	1.7	1.7
Issuances	—	—	—
Sales	—	—	—
Settlements	—	—	—
Ending balance, December 31, 2017	$ 1.9	$ 2.3	$ 4.2
Amount of total gains or losses for the year included in net income (loss) attributable to the change in unrealized gains or losses relating to assets still held at December 31, 2017	$ —	$ —	$ —

At December 31, 2018 and 2017, we did not have any financial assets or financial liabilities measured at fair value on a nonrecurring basis or any financial liabilities on a recurring basis.

4. Reinsurance

We reinsure certain risks with other insurance companies. Such arrangements serve to limit our maximum loss on certain individual risks as well as on catastrophes and large or unusually hazardous risks. We are liable to our insureds for reinsurance ceded in the event our reinsurers do not meet their obligations. Thus, a credit exposure exists with respect to reinsurance ceded to the extent that any reinsurer is unable or unwilling to meet the obligations assumed under the reinsurance contracts. Our allowance for uncollectible reinsurance balances receivable on paid losses and incurred claims was $1.8 million and $2.1 million as of December 31, 2018 and 2017, respectively. Under certain reinsurance agreements, collateral, including letters of credit, is held to secure performance of reinsurers in meeting their obligations. The amount of such collateral was $944.0 million and $646.7 million at December 31, 2018 and 2017, respectively. The collateral we hold does not apply to our entire outstanding reinsurance recoverable. Rather, collateral is provided on an individual contract basis as appropriate. For each individual reinsurer, the collateral held may exceed or fall below the total outstanding recoverable from that individual reinsurer.

The long-term nature of the reinsurance contracts creates a credit risk to us over time arising from potentially uncollectible reinsurance. To mitigate that counterparty risk, we evaluate our reinsurers to assess their financial condition. The factors that underlie these reviews include a financial risk assessment as well as an internal assessment of the capitalization and the operational risk of the reinsurer. As a result of these reviews, we may make changes to the approved markets that are used in both our treaty and facultative reinsurance programs.

Estimated losses recoverable from reinsurers and the ceded portion of unearned premiums are reported as assets in our Consolidated Balance Sheets. Included in "Reinsurance recoverables" are paid loss recoverables of $596.6 million and $290.6 million as of December 31, 2018 and 2017, respectively. "Earned Premiums" and "Losses and loss adjustment expenses" are reported net of reinsurance in our Consolidated Statements of Income.

Losses and loss adjustment expenses of $1,036.8 million and $942.6 million for the years ended December 31, 2018 and 2017, respectively, are net of amounts ceded to reinsurers of $857.6 million and $651.5 million, respectively.

We are required to accept certain assigned risks and other legally mandated reinsurance obligations. Prior to the mid-1980s, we assumed various forms of casualty reinsurance for which we continue to maintain reserves for losses and loss adjustment expenses (see Note 6, "Run-off Lines"). For such assumed reinsurance transactions, we engage in various monitoring steps that are common with assumed reinsurance such as ongoing claims reviews. We currently assume property related reinsurance primarily through our subsidiaries, Argo Re and Ariel Re, and casualty related reinsurance primarily through Syndicate 1200.

Premiums were as follows:

(in millions)	For the Years Ended December 31, 2018	2017
Direct written premiums	$ 2,335.1	$ 1,979.7
Reinsurance ceded to other companies	(1,243.6)	(857.6)
Reinsurance assumed from other companies	671.9	419.4
Net written premiums	$ 1,763.4	$ 1,541.5
Direct earned premiums	$ 2,203.6	$ 1,863.3
Reinsurance ceded to other companies	(1,109.1)	(817.3)
Reinsurance assumed from other companies	601.3	402.6
Net earned premiums	$ 1,695.8	$ 1,448.6
Percentage of reinsurance assumed to net earned premiums	35.5%	27.8%

5. Reserves for Losses and Loss Adjustment Expenses

The following table provides a reconciliation of reserves for losses and loss adjustment expenses ("LAE"):

(in millions)	For the Years Ended December 31, 2018	2017
Net reserves beginning of the year	$ 2,376.4	$ 2,180.2
Net Ariscom reserves acquired	43.4	—
Net ACML reserves acquired	45.6	—
Add:		
Losses and LAE incurred during current calendar year, net of reinsurance:		
Current accident year	1,054.2	945.8
Prior accident years	(17.4)	(3.2)
Losses and LAE incurred during calendar year, net of reinsurance	1,036.8	942.6
Deduct:		
Losses and LAE payments made during current calendar year, net of reinsurance:		
Current accident year	229.7	215.9
Prior accident years	658.6	545.4
Losses and LAE payments made during current calendar year, net of reinsurance:	888.3	761.3
Change in participation interest [1]	(13.0)	(23.2)
Foreign exchange adjustments	(38.0)	38.1
Net reserves - end of year	2,562.9	2,376.4
Add:		
Reinsurance recoverables on unpaid losses and LAE, end of year	2,091.7	1,391.3
Gross reserves - end of year	$ 4,654.6	$ 3,767.7

[1] Amount represents (decrease) increase in reserves due to change in our Syndicate 1200 and Syndicate 1910 participation.

Reserves for losses and LAE represent the estimated indemnity cost and related adjustment expenses necessary to investigate and settle claims. Such estimates are based upon individual case estimates for reported claims, estimates from ceding companies for reinsurance assumed and actuarial estimates for losses that have been incurred but not yet reported to the insurer. Any change in probable ultimate liabilities is reflected in current operating results.

The impact from the (favorable) unfavorable development of prior accident years' losses and LAE reserves on each reporting segment is presented below:

(in millions)	For the Years Ended December 31, 2018	2017
U.S. Operations	$ (20.8)	$ (38.7)
International Operations	(8.9)	18.2
Run-off Lines	12.3	17.3
Total unfavorable (favorable) prior-year development	$ (17.4)	$ (3.2)

The following describes the primary factors behind each segment's prior accident year reserve development for the years ended December 31, 2018 and 2017:

Year ended December 31, 2018:

- *U.S. Operations:* Favorable development in general liability and surety lines, partially offset by unfavorable development in commercial multi-peril lines.
- *International Operations:* Favorable development in property partially offset by unfavorable development within specialty and liability lines.
- *Run-off Lines:* Unfavorable development in liability lines as well as asbestos and environmental.

Year ended December 31, 2017:

- *U.S. Operations:* Favorable development in our general liability, workers compensation, surety and commercial automobile lines.
- *International Operations:* Unfavorable development in the property and liability lines, primarily due to the first quarter 2017 Ogden rate change and claims from Hurricane Matthew. Partially offsetting this unfavorable development was favorable development on the property reinsurance lines.
- *Run-off Lines:* Unfavorable development on prior accident years driven by our asbestos exposure due to increasing defense costs and an increase in the time claims remain open, and in other run-off lines, partially offset by favorable development in the run-off risk management lines.

In the opinion of management, our reserves represent the best estimate of our ultimate liabilities, based on currently known facts, current law, current technology and assumptions considered reasonable where facts are not known. Due to the significant uncertainties and related management judgments, there can be no assurance that future favorable or unfavorable loss development, which may be material, will not occur.

Short-Duration Contract Disclosures

ASU 2015-09, "Disclosures about Short-Duration Contracts" (Topic 944), requires insurers to make disclosures about their liability for unpaid claims and claim adjustment expenses for short-duration insurance contracts. These disclosures include tables showing incurred and paid claims development information (net of reinsurance and excluding unallocated loss adjustment expenses) which are disaggregated based on the characteristics of the insurance contracts that the insurer writes and other factors specific to the reporting entity. The information should be disclosed by accident year for the number of years claims typically remain outstanding, but need not be more than 10 years, including a reconciliation of the disaggregated information to the consolidated statement of financial position. The basis for our disaggregation of this information is by each of our two ongoing reporting segments, U.S. Operations and International Operations, further disaggregated within each segment by our operating divisions and the primary insurance and reinsurance lines of business we write. We've chosen to disaggregate the data in this way so as to not obscure useful information by otherwise aggregating items with significantly different characteristics.

Operating Divisions

Our U.S. Operations reporting segment is comprised of two primary operating divisions, Excess and Surplus Lines and Commercial Specialty, while International Operations includes the International Specialty, and Syndicate 1200 operating divisions. Each of our operating divisions are further described below.

Excess and Surplus Lines

The Excess and Surplus Lines division focuses on U.S.-based risks that the standard (admitted) market is unwilling or unable to underwrite. The standard market's limited appetite for such coverage is often driven by the insured's unique risk characteristics, the perils involved, the nature of the business, and/or the insured's loss experience. We are often able to underwrite these risks with more flexible policy terms through our Excess and Surplus Lines division. We underwrite this business on both an admitted and non-admitted basis.

Specialty Admitted

This Specialty Admitted division provides coverages designed to meet the specialized insurance needs of U.S.-based businesses within certain well-defined markets. It targets business classes and industries with distinct risk profiles that can benefit from specially designed insurance programs, tailored loss control and expert claims handling. This division serves its targeted niche markets with a narrowly focused underwriting profile and specialized knowledge of the businesses it serves.

Argo Insurance Bermuda

Argo Insurance Bermuda offers casualty, property and professional lines, which serves the needs of global clients by providing the following coverages: property, general and products liability, directors and officers liability, errors and omissions liability and employment practices liability.

Reinsurance

The Reinsurance division operates in two areas - treaty property and specialty. This business is focused on mainly North American commercial properties and writes on both a primary and excess basis. Business is written on an open market basis through retail and wholesale brokers. Treaty property reinsurance is predominantly catastrophe-focused. Specialty reinsurance encompasses marine, energy, aviation, terrorism and property. This reinsurance portfolio is focused on treaties where high-quality exposure and experience data allow our underwriters to quantify the risk.

Syndicate 1200

The Syndicate 1200 division is focused on underwriting worldwide property, specialty and non-U.S. liability insurance through Argo Underwriting Agency, Ltd. on behalf of Lloyd's Syndicate 1200 within the Lloyd's of London global franchise.

Lines of Business

We use an underwriting committee structure to monitor and evaluate the operating performance of our lines of business. The underwriting committees are organized to allow products or coverages with similar characteristics to be managed and evaluated in distinct groups. Using this approach, our insurance business is categorized into underwriting groups, which are Liability, Professional, Property and Specialty. Noted below are descriptions of the types of characteristics considered to disaggregate our business into these groups, as well as other qualitative factors to consider when using the information contained in the following incurred and paid claims development tables.

Liability

Our Liability business generally covers exposures where most claims are reported without a significant time lag between the event that gives rise to a claim and the date the claim is reported to us. However, since facts and information are frequently not complete at the time claims are reported to us, and because protracted litigation is sometimes involved, it can be several years before the ultimate value of these claims is determined. In our Argo Bermuda Insurance division, much of the business covers higher layers, potentially increasing the time it takes to fully determine our exposure.

Professional

Much of our Professional business is written on a claims-made basis resulting in coverage only for claims that are reported to us during the year in which the policy is effective, thus reducing the number of claims that will become known to us after the end of the policy expiration date. However, facts and information are frequently not complete at the time claims are reported to us, and protracted litigation is sometimes involved. It can be several years before the ultimate value of these claims is determined. In our Argo Bermuda Insurance division, much of the business covers higher layers, potentially increasing the time it takes to fully determine our exposure.

Property

Property losses are generally reported within a short period of time from the date of loss, and in most instances, property claims are settled and paid within a relatively short timeframe. However, Property can be impacted by catastrophe losses which can be more complex than non-catastrophe Property claims due to factors such as difficulty accessing impacted areas and other physical, legal and regulatory impediments potentially extending the period of time it takes to settle and pay claims. The impacts of catastrophe losses can be more significant in our Reinsurance and Syndicate 1200 divisions.

Specialty

Specialty lines losses are generally reported within a short period of time from the date of loss, and in most instances, Specialty lines claims are settled and paid within a relatively short timeframe. However, Specialty lines can be impacted by larger losses where facts and information are frequently not complete at the time claims are reported to us. These large losses can be more complex than smaller Specialty claims due to factors such as difficulty determining actual damages and other physical, legal and regulatory impediments potentially extending the period of time it takes to settle and pay claims.

Descriptions of the primary types of coverages included in the significant lines of business for each operating division, as disclosed in the following tables, are noted below:

Excess and Surplus Lines

- *Liability:* primary and excess specialty casualty, contract liability, commercial multi-peril, product liability, environmental liability, and auto liability

Specialty Admitted

- *Liability:* workers compensation, general liability, auto liability, and various public entity liability risks
- *Professional:* management liability and errors and omissions liability
- *Specialty:* surety and inland marine

Argo Insurance Bermuda

- *Liability:* long-tail excess casualty and general liability

Reinsurance

- *Property:* property catastrophe reinsurance and excess property direct and facultative insurance

Syndicate 1200

- *Liability:* general liability, international casualty and motor treaties
- *Professional:* professional indemnity, directors and officer’s liability, and medical malpractice
- *Property:* direct and facultative excess insurance, North American and international binders, and residential collateral protection for lending institutions
- *Specialty:* personal accident, aviation, cargo, yachts, and onshore and offshore marine

Run-off Lines Segment

We have a Run-off Lines segment for certain products that we no longer underwrite, including asbestos and environmental claims. We have excluded the Run-off Lines segment from the following disaggregated short-duration contract disclosures due to its insignificance to our consolidated financial position and results of operations, both quantitatively and qualitatively. Gross reserves for losses and LAE in Run-off Lines account for less than 6% of our consolidated gross reserves for losses and LAE, and are primarily related to accident years prior to the mid-1990s. As such, claims development tables for the most recent 10 accident years would not provide meaningful information to users of our financial statements, as the majority of the remaining reserves for losses and LAE would be for accident years not separately presented. See Note 6, “Run-off Lines,” for further information on this segment, including discussion of prior accidents years’ development.

Accident Years Presented

Based on the previous operating structure and management of our business prior to calendar year 2011, we did not track ultimate claims and claim adjustment expenses by accident year at a level of detail consistent with the current segmentation of our business, including our operating divisions, with the exception of the business in Syndicate 1200. As a result, it is impracticable to obtain the information necessary to provide historical ultimate claims and claim adjustment expense estimates prior to December 31, 2011 in the following incurred and paid claims development tables for all disaggregation categories except those associated with Syndicate 1200.

Syndicate 1200 ultimate claims and claim adjustment expenses are provided beginning with accident year 2010 due to the retroactive whole account quota share contract we entered into on December 31, 2012. As a result of this transaction, reserves for losses and LAE prior to accident year 2010 were legally transferred to another syndicate within the Lloyd's market. Under this quota share contract, we did not retain any direct indemnity or credit risk for the reserves prior to accident year 2010.

Foreign Currency

Portions of the business we write in the Syndicate 1200, Argo Bermuda Insurance and Reinsurance divisions are denominated in foreign currencies. We have used the December 31, 2018 balance sheet foreign exchange rates to recast the incurred and paid claims information for all periods presented in the following claims development tables in order to eliminate the effects of changes in foreign currency translation rates.

Reserves for Incurred But Not Reported ("IBNR") Claims

Reserves for IBNR claims are based on the estimated ultimate cost of settling claims, including the effects of inflation and other social and economic factors, using past experience adjusted for current trends and any other factors that would modify past experience. We use a variety of statistical and actuarial techniques to analyze current claims costs, including frequency and severity data and prevailing economic, social and legal factors. Each such method has its own set of assumptions and outputs, and each has strengths and weaknesses in different areas. Since no single estimation method is superior to another method in all situations, the methods and assumptions used to project loss reserves will vary by coverage and product. We use what we believe to be the most appropriate set of actuarial methods and assumptions for each product line grouping and coverage. While the loss projection methods may vary by product line and coverage, the general approach for calculating IBNR remains the same: ultimate losses are forecasted first, and that amount is reduced by the amount of cumulative paid claims and case reserves. Reserves established in prior years are adjusted as loss experience develops and new information becomes available. Adjustments to previously estimated reserves are reflected in the results of operations in the year in which they are made.

As described above, various actuarial methods are utilized to determine the reserves for losses and LAE recorded in our Consolidated Balance Sheets. Weightings of methods at a detailed level may change from evaluation to evaluation based on a number of observations, measures, and time elements. There were no significant changes to the methods and assumptions underlying our consolidated reserve estimations and selections as of December 31, 2018.

Acquisitions

As noted in Note 1, "Business and Significant Accounting Policies", we acquired ACML on September 26, 2018. As required by ASU 2015-09, the information related to the acquired business is presented retrospectively in the short-duration tables below.

Incurred & Paid Claims Development Disclosures

The following tables provide information about incurred and cumulative paid losses and allocated loss adjustment expenses ("ALAE"), net of reinsurance. The following tables also include IBNR reserves plus expected development on reported claims and the cumulative number of reported claims as of December 31, 2018.

Syndicate 1200 Claim Frequency Information

Cumulative claim frequency information has been excluded from the Syndicate 1200 Liability, Professional and Property incurred and paid claims development tables above due to the impracticability of obtaining such information at the level required for meaningful disaggregated disclosure.

Syndicate 1200 measures claim frequency based on the number of reported claims by individual claimant at a coverage level for non-bordereau reporting, which is consistent with market practices for insurance business sourced through open market channels. For claims reported on a bordereau for business sourced through channels such as Lloyd's authorized coverholders, which constitutes approximately half of the business written in Syndicate 1200, the number of reported claims is measured by bordereau report at a coverage level. This method of tracking and analyzing bordereau-reported claims is consistent with common industry practice within the Lloyd's market. The information for both bordereau and non-bordereau claims may be pooled dependent on the class of business and analyzed in the aggregate to determine the ultimate cost of settling the claims by line of business and Lloyd's year of account. Due to our methodology of establishing ultimate liabilities for Syndicate 1200 claims, there is not a reasonable way to disaggregate the IBNR reserves and expected development on reported claims between bordereau and non-bordereau business for separate disclosure.

The reconciliation of the net incurred and paid development tables to the liability for unpaid losses and LAE in our Consolidated Balance Sheets is as follows:

(in millions)	As of December 31, 2018
Liabilities for unpaid losses and ALAE:	
U.S. Operations:	
Excess and Surplus Lines - Liability	$ 893.2
Specialty Admitted - Liability	422.6
Specialty Admitted - Professional	151.3
Specialty Admitted - Specialty	52.0
International Operations:	
Reinsurance - Property	97.2
Argo Insurance Bermuda - Liability	52.2
Syndicate 1200 - Liability	94.3
Syndicate 1200 - Professional	99.6
Syndicate 1200 - Property	126.0
Syndicate 1200 - Specialty	146.8
Run-off Lines	182.5
Other lines	198.5
Total liabilities for unpaid losses and ALAE, net of reinsurance	2,516.2
Reinsurance recoverables on unpaid losses and LAE:	
U.S. Operations:	
Excess and Surplus Lines - Liability	296.3
Specialty Admitted - Liability	303.3
Specialty Admitted - Professional	93.7
Specialty Admitted - Specialty	25.8
International Operations:	
Reinsurance - Property	404.5
Argo Insurance Bermuda - Liability	100.6
Syndicate 1200 - Liability	59.4
Syndicate 1200 - Professional	70.8
Syndicate 1200 - Property	116.4
Syndicate 1200 - Specialty	109.8
Run-off Lines	88.1
Other lines	423.0
Total reinsurance recoverables on unpaid losses and LAE	2,091.7
Unallocated loss adjustment expenses	63.6
Unamortized reserve discount	(16.9)
Gross liability for unpaid losses and LAE	$ 4,654.6

Other lines in the table above is comprised of products within our four operating segments which are not individually significant for separate disaggregated disclosure.

Claims Duration

The following table provides supplementary unaudited information about the annual percentage payout of incurred losses and ALAE, net of reinsurance, as of December 31, 2018:

	Average Annual Percentage Payout of Incurred Claims by Age, Net of Reinsurance [1]								
	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	Year 7	Year 8	Year 9
U.S. Operations:									
Excess and Surplus Lines - Liability	7.8%	19.2%	19.0%	17.1%	11.5%	7.9%	5.3%	3.5%	N/A
Specialty Admitted - Liability	14.6%	21.6%	18.3%	16.0%	9.1%	6.1%	4.0%	2.7%	N/A
Specialty Admitted- Professional	7.2%	24.5%	29.6%	19.8%	8.4%	4.1%	2.2%	1.3%	N/A
Specialty Admitted - Specialty	40.5%	30.6%	11.9%	8.3%	4.2%	2.2%	1.1%	0.6%	N/A
International Operations:									
Reinsurance - Property	21.2%	33.7%	13.8%	12.9%	6.1%	4.0%	2.6%	1.8%	N/A
Argo Insurance Bermuda - Liability	1.3%	8.6%	17.8%	21.9%	16.6%	10.1%	6.8%	4.6%	N/A
Syndicate 1200 - Liability	3.3%	7.2%	9.4%	12.7%	14.6%	12.3%	10.9%	8.6%	6.4%
Syndicate 1200 - Professional	4.7%	10.4%	14.5%	14.8%	11.3%	10.5%	8.1%	6.8%	5.2%
Syndicate 1200 - Property	39.5%	28.0%	16.0%	9.8%	3.0%	1.7%	0.9%	0.5%	0.3%
Syndicate 1200 - Specialty	38.9%	29.2%	15.6%	9.6%	3.7%	1.7%	0.8%	0.3%	0.2%

(1) The average annual percentage payout is calculated from a paid losses and ALAE development pattern based on an actuarial analysis of the paid losses and ALAE movements by accident year for each disaggregation category. The paid losses and ALAE development pattern provides the expected percentage of ultimate losses and ALAE to be paid in each year. The pattern considers all accident years included in the claims development tables.

Information About Amounts Reported at Present Value

We discount certain workers compensation liabilities for unpaid losses and LAE within our US Operations and Run-off Lines segments. The discounted US Operations liabilities relate to all non-ALAE workers compensation liabilities within one of our insurance subsidiaries. In Run-off Lines, we discount certain pension-type liabilities for unpaid losses and LAE. The following tables provide information about these discounted liabilities for unpaid losses and LAE:

	Carrying Amount of Reserves for Losses & LAE As of December 31,		Aggregate Amount of Discount As of December 31,	
(in millions, except discount percentages)	2018	2017	2018	2017
U.S. Operations:				
Specialty Admitted - Liability	$ 140.8	$ 126.7	$ 11.9	$ 10.6
Run-off Lines	163.1	175.5	5.0	7.0
Total	$ 303.9	$ 302.2	$ 16.9	$ 17.6

	Interest Accretion [1] For the Years Ended December 31,		Discount Rate As of December 31,	
	2018	2017	2018	2017
U.S. Operations:				
Specialty Admitted - Liability	$ 1.3	$ 1.9	2.25%	2.25%
Run-off Lines	2.1	2.1	3.50%	3.50%
Total	$ 3.4	$ 4.0		

(1) Interest accretion is recorded in the line item “Losses and loss adjustment expenses” in our Consolidated Statements of Income.

6. Run-off Lines

We have discontinued active underwriting of certain lines of business, including those lines that were previously recorded in Argo Group’s Risk Management segment. All current activity within these lines is related to the management of claims and other administrative functions. Also included in Run-off Lines are other liability reserves, which include exposure to claims for asbestos and environmental liabilities written in past years. The other liability reserves are often characterized by long elapsed periods between the occurrence of a claim and ultimate payment to resolve the claim. We use a specialized staff dedicated to administer and settle these claims.

The following table presents our gross reserves for Run-off Lines as of December 31:

(in millions)	December 31, 2018	2017
Asbestos and Environmental:		
Reinsurance assumed	$ 27.7	$ 29.3
Other	27.1	26.6
Total Asbestos and Environmental	54.8	55.9
Risk management	197.0	219.6
Run-off reinsurance lines	1.6	1.8
Other run-off lines	12.2	4.6
Gross reserves - Run-off Lines	$ 265.6	$ 281.9

We have received asbestos and environmental liability claims arising from other liability coverage primarily written in the 1960s, 1970s and into the mid-1980s. Asbestos and environmental claims originate from policies directly underwritten by us and from reinsurance assumed during this period, including a portion assumed from the London market. The following table represents the total gross reserves for our asbestos exposure:

(in millions)	December 31, 2018	2017
Direct written		
Case reserves	$ 2.7	$ 2.1
Unallocated loss adjustment expense ("ULAE")	0.5	0.5
Incurred but not reported ("IBNR")	19.1	18.8
Total direct written reserves	22.3	21.4
Assumed domestic		
Case reserves	8.7	9.8
ULAE	0.8	0.8
IBNR	12.0	13.7
Total assumed domestic reserves	21.5	24.3
Assumed London		
Case reserves	1.5	2.3
ULAE	—	—
IBNR	1.5	0.6
Total assumed London reserves	3.0	2.9
Total asbestos reserves	$ 46.8	$ 48.6

The following table presents our results for Run-off Lines:

(in millions)	For the Years Ended December 31, 2018	2017
Asbestos and Environmental:		
Reinsurance assumed	$ (3.9)	$ (8.7)
Other	(4.1)	(6.7)
Total Asbestos and Environmental	(8.0)	(15.4)
Risk management	(2.6)	(8.8)
Run-off reinsurance lines	—	(0.1)
Other run-off lines	(5.3)	(1.4)
Total underwriting loss - Run-off Lines	$ (15.9)	$ (25.7)

Reserves for asbestos and environmental claims cannot be estimated with traditional loss reserving techniques that rely on historical accident year loss development factors. The uncertainty in the asbestos and environmental reserves estimates arises from several factors including lack of actuarially credible historical data, inapplicability of standard actuarial projection techniques, uncertainty with regards to claim costs, coverage interpretations and judicial, statutory and regulatory provisions under which the claims may be ultimately resolved. It is impossible to predict how the courts will interpret coverage issues and these resolutions may have a material impact on the ultimate resolution of the asbestos and environmental liabilities. We use a variety of estimation methods to calculate reserves as a whole; however, reserves for asbestos and environmental claims were determined utilizing a variety of methods which rely on historical claim reporting and average claim cost information. We apply greatest weight to the method that projects future calendar period claims and average claim costs because it best captures the unique claim characteristics of our underlying exposures. Although management has recorded its best estimate of loss reserves, due to the uncertainties of estimation of liability that may arise as discussed herein, further deterioration of claims could occur in the future.

Please see Note 5, "Reserves for Losses and Loss Adjustment Expenses" for further discussion.

7. Senior Unsecured Fixed Rate Notes

In September 2012, Argo Group, through its subsidiary Argo Group US, issued $143,750,000 aggregate principal amount of the Argo Group US's 6.5% Senior Notes due September 15, 2042 (the "Notes"). The Notes are unsecured and unsubordinated obligations of the Argo Group US and rank equally in right of payment with all of Argo Group US's other unsecured and unsubordinated debt. The Notes are guaranteed on a full and unconditional senior unsecured basis by the Argo Group. The Notes may be redeemed, for cash, in whole or in part, on or after September 15, 2017, at Argo Group US's option, at any time and from time to time, prior to maturity at a redemption price equal to 100% of the principal amount of the Notes to be redeemed, plus accrued but unpaid interest on the principal amount being redeemed to, but not including, the redemption date.

In accordance with ASU 2015-03, "Simplifying the Presentation of Debt Issuance Costs" (Topic 835), we present the unamortized debt issuance costs in the balance sheet as a direct deduction from the carrying value of the debt liability. At December 31, 2018 and 2017, the Notes consisted of the following:

(in millions)	December 31, 2018	December 31, 2017
Senior unsecured fixed rate notes		
Principal	$ 143.8	$ 143.8
Less: unamortized debt issuance costs	(4.0)	(4.2)
Senior unsecured fixed rate notes, less unamortized debt issuance costs	$ 139.8	$ 139.6

8. Junior Subordinated Debentures

Through a series of trusts, that are wholly-owned subsidiaries (non-consolidated), we issued debt. The debentures are variable with the rate being reset quarterly and subject to certain interest rate ceilings. Interest payments are payable quarterly. The debentures are all unsecured and are subordinated to other indebtedness. At December 31, 2018 and 2017, all debentures were eligible for redemption subject to certain terms and conditions at a price equal to 100% of the principal plus accrued and unpaid interest.

A summary of our outstanding junior subordinated debentures is presented below:

December 31, 2018

(in millions)				Interest Rates at	
Issue Date	**Trust Preferred Pools**	**Maturity**	**Rate Structure**	**December 31, 2018**	**Amount**

09/17/2004	Argonaut Group Statutory Trust VII	12/15/2034	3M LIBOR + 3.60%	5.19%	15.5
09/22/2004	Argonaut Group Statutory Trust VIII	09/22/2034	3M LIBOR + 3.55%	5.21%	15.5
10/22/2004	Argonaut Group Statutory Trust IX	12/15/2034	3M LIBOR + 3.60%	5.19%	15.5
09/14/2005	Argonaut Group Statutory Trust X	09/15/2035	3M LIBOR + 3.40%	4.99%	30.9
	Total Outstanding				$ 144.3

Junior Subordinated Debentures from Parent

Unsecured junior subordinated debentures with a principal balance of $91.8 million were assumed through the acquisition of Maybrooke ("the acquired debt"). As part of the ongoing liquidation of the Maybrooke holding company, which began subsequent to our acquisition in 2018, the acquired debt was ultimately assigned to Argo Re and is carried on our consolidated balance sheet at $84.3 million, which represents the debt's fair value at the date of acquisition plus accumulated accretion of discount to par value, as required by accounting for business combinations under ASC 805. At December 31, 2018, the acquired debt was eligible for redemption at par. Interest accrues on the acquired debt based on a variable rate, which is reset quarterly. Interest payments are payable quarterly.

A summary of the terms of the acquired debt outstanding is presented below:

(in millions)			Interest Rate at	Principal at	Carrying Value at
Issue Date	**Maturity**	**Rate Structure**	**December 31, 2018**	**December 31, 2018**	**December 31, 2018**
September 15, 2007	September 15, 2037	3 month LIBOR + 3.15%	5.94%	$ 91.8	$ 84.3

(in millions) Issue Date	Maturity	Rate Structure	Interest Rate at December 31, 2017	Principal at December 31, 2017	Carrying Value at December 31, 2017
September 15, 2007	September 15, 2037	3 month LIBOR + 3.15%	4.74%	$ 91.8	$ 83.9

9. Other Indebtedness

Our Consolidated Balance Sheets includes various long-term debt instruments under the caption "Other indebtedness," as detailed in the table below. Information regarding the terms and principal amounts of each of these debt instruments is also provided.

(in millions)

Debt Type	December 31, 2018	December 31, 2017
Floating rate loan stock	$ 57.8	$ 58.9
Other debt	0.6	0.6
Total other indebtedness	$ 58.4	$ 59.5

Floating Rate Loan Stock

This debt was assumed through the acquisition of Argo Underwriting Agency, Ltd. These notes are unsecured. At December 31, 2018 and 2017, all notes were eligible for redemption subject to certain terms and conditions at a price equal to 100% of the principal plus accrued and unpaid interest. Interest on the U.S. Dollar and Euro notes is due semiannually and quarterly, respectively. A summary of the notes outstanding at December 31, 2018 and 2017 is presented below:

December 31, 2018

(in millions)

Currency	Issue Date	Maturity	Rate Structure	Interest Rates at December 31, 2018	Amount
U.S. Dollar	12/8/2004	11/15/2034	6 month LIBOR + 4.2%	6.72%	$ 6.5
U.S. Dollar	10/31/2006	1/15/2036	6 month LIBOR + 4.0%	6.52%	10.0
Total U.S. Dollar notes					16.5
Euro	9/6/2005	8/22/2035	3 month LIBOR + 4.0%	3.68%	13.8
Euro	10/31/2006	11/24/2036	3 month LIBOR + 4.0%	3.68%	12.0
Euro	6/8/2007	9/15/2037	3 month LIBOR + 3.9%	3.59%	15.5
Total Euro notes					41.3
Total notes outstanding					$ 57.8

December 31, 2017

(in millions)

Currency	Issue Date	Maturity	Rate Structure	Interest Rates at December 31, 2017	Amount
U.S. Dollar	12/8/2004	11/15/2034	6 month LIBOR + 4.2%	5.66%	$ 6.5
U.S. Dollar	10/31/2006	1/15/2036	6 month LIBOR + 4.0%	5.46%	10.0
Total U.S. Dollar notes					16.5
Euro	9/6/2005	8/22/2035	3 month LIBOR + 4.0%	3.67%	14.1
Euro	10/31/2006	11/22/2036	3 month LIBOR + 4.0%	3.67%	12.4
Euro	6/8/2007	9/15/2037	3 month LIBOR + 3.9%	3.57%	15.9
Total Euro notes					42.4
Total notes outstanding					$ 58.9

No principal payments have been made since the acquisition of Argo Underwriting Agency, Ltd. The floating rate loan stock denominated in Euros fluctuates due to foreign currency translation. The outstanding balance on these loans was $41.3 million and $42.4 million as of December 31, 2018 and 2017, respectively. The foreign currency translation adjustment is recorded in our Consolidated Statements of Income.

Borrowing Under Revolving Credit Facility

On November 2, 2018, each of Argo Group, Argo Group U.S., Inc., Argo International Holdings Limited, and Argo Underwriting Agency Limited (the "Borrowers") entered into a new $325.0 million credit agreement (the "New Credit Agreement") with JPMorgan Chase

Bank, N.A., as administrative agent. The New Credit Agreement replaced the prior $325.0 million Credit Agreement (the "Prior Agreement"), dated as of March 3, 2017. In addition, the New Credit Agreement provides for a $200.0 million revolving credit facility, and the commitments thereunder shall expire on November 2, 2023 unless extended in accordance with the terms of the New Credit Agreement. Interest accrues based on a variable rate, which resets and is payable based on reset options selected by Argo Group pursuant to the terms of the New Credit Agreement.

Borrowings under the New Credit Agreement may be used for general corporate purposes, including working capital, permitted acquisitions and letters of credit, and each of the Borrowers has agreed to be jointly and severally liable for the obligations of the other Borrowers under the New Credit Agreement.

The New Credit Agreement contains customary events of default. If an event of default occurs and is continuing, the Borrowers could be required immediately to repay all amounts outstanding under the New Credit Agreement. Lenders holding at least a majority of the loans and commitments under the New Credit Agreement could elect to accelerate the maturity of the loans and/or terminate the commitments under the New Credit Agreement upon the occurrence and during the continuation of an event of default.

Included in the New Credit Agreement is a provision that allows up to $200.0 million of the revolving credit facility to be used for LOCs, subject to availability. On November 2, 2018, the $0.5 million LOC outstanding under the Prior Agreement was transferred to the New Credit Agreement. At December 31, 2018 and 2017, there were no borrowings outstanding under the revolving portions of the credit facilities. At December 31, 2018 and 2017, there was $0.5 million in LOCs against the New and Prior Agreement, respectively.

Other Debt

Argo Re has entered into two secured, bilateral committed letter of credit facilities with commercial banks to issue LOCs in support of its non-admitted reinsurance obligations. These facilities have a term of one year and include customary conditions and event of default provisions. The availability of letters of credit under these secured facilities are subject to a borrowing base requirement, determined on the basis of specified percentages of the market value of eligible categories of securities pledged to the lender. Argo Re has also used LOCs issued from commercial banks on a secured, uncommitted basis in order to satisfy these requirements.

On December 31, 2018, reinsurance LOCs totaling $99.7 million were outstanding, of which $80.7 million were issued against the secured bilateral LOC facilities and $19.0 million were issued by a commercial bank on an uncommitted basis. Collateral with a market value of $120.9 million was pledged to these banks as security against these LOCs. See Note 3, “Investments,” for additional information.

As part of the ARIS Title Insurance Corporation (“ARIS”) acquisition, at December 31, 2018 and 2017, we had a note payable for $0.6 million. The note had a variable interest rate of 2.00% above 30-day LIBOR, with the variable interest rate being reset quarterly and subject to certain interest rate ceilings. Interest payments are payable quarterly. The note payable matures on April 1, 2019.

10. Disclosures about Fair Value of Financial Instruments

Cash. The carrying amount approximates fair value.

Investment securities and short-term investments. See Note 3, “Investments,” for additional information.

Premiums receivable and reinsurance recoverables on paid losses. The carrying value of current receivables and reinsurance recoverables on paid losses approximates fair value.

Debt. At December 31, 2018 and 2017, the fair value of our Junior subordinated debentures, Senior unsecured fixed rate notes and Other indebtedness was estimated using appropriate market indices or quoted prices from external sources based on current market conditions. All of these debt instruments would be in Level 3 of the fair value hierarchy, as the fair value estimates shown below were calculated using unobservable inputs reflecting our assumptions about the assumptions market participants would use in pricing the liabilities.

A summary of our financial instruments whose carrying value did not equal fair value is shown below:

	December 31, 2018		December 31, 2017	
(in millions)	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Junior subordinated debentures:				
Trust preferred debentures	$ 144.3	$ 136.4	$ 144.3	$ 144.5
Subordinated debentures acquired with Maybrooke	84.3	85.0	83.9	85.0
Total junior subordinated debentures	228.6	221.4	228.2	229.5
Senior unsecured fixed rate notes	139.8	139.5	139.6	141.2
Floating rate loan stock	57.8	54.5	58.9	59.0

11. Shareholders' Equity

In 2018, Argo Re paid dividends to Argo Group of $36.5 million. The proceeds of the dividends were used to pay intercompany balances related primarily to the funding of dividend and interest payments and other corporate expense. In 2017, Argo Re did not pay a dividend to Argo Group.

For the year ended December 31, 2017, we repurchased 754,832 common shares for $45.1 million. These shares, which were repurchased on behalf and for the benefit of Argo Group, are held in treasury and reflected in "Holdings in parent company common shares" in our Consolidated Balance Sheets at December 31, 2018 and 2017. In 2018, Argo Re did not repurchase shares.

12. Underwriting, Acquisition and Insurance Expenses

Underwriting, acquisition and insurance expenses were as follows:

	For the Year Ended December 31,	
(in millions)	2018	2017
Commissions	$ 269.5	$ 255.1
General expenses	339.0	317.3
Premium taxes, boards and bureaus	32.4	32.3
	640.9	604.7
Net deferral of policy acquisition costs	(6.4)	(16.6)
Total underwriting, acquisition and insurance expenses	$ 634.5	$ 588.1

13. Income Taxes

We are incorporated under the laws of Bermuda and, under current Bermuda law, are not obligated to pay any taxes in Bermuda based upon income or capital gains. We have received an undertaking from the Supervisor of Insurance in Bermuda pursuant to the provisions of the Exempted Undertakings Tax Protection Act, 2011, which exempts us from any Bermuda taxes computed on profits, income or any capital asset, gain or appreciation or any tax in the nature of estate duty or inheritance tax, at least until the year 2035.

We do not consider ourselves to be engaged in a trade or business in the United States or the United Kingdom and, accordingly, do not expect to be subject to direct United States or United Kingdom income taxation.

We have subsidiaries based in the United Kingdom that are subject to the tax laws of that country. Under current law, these subsidiaries are taxed at the applicable corporate tax rates. Eight of the United Kingdom subsidiaries are deemed to be engaged in business in the United States, and therefore, are subject to United States corporate tax in respect of a proportion of their United States underwriting business only. As such, these subsidiaries are now subject to the minimum BEAT computation imposed by the TCJA on this underwriting business. Relief, exclusive of any BEAT, is available against the United Kingdom tax liabilities in respect of overseas taxes paid that arise from the underwriting business. Our United Kingdom subsidiaries file separate United Kingdom income tax returns.

We have subsidiaries based in the United States that are subject to United States tax laws. Under current law, these subsidiaries are taxed at the applicable corporate tax rates. Our United States subsidiaries generally file a consolidated United States federal income tax return.

We also have operations in Belgium, Brazil, France, Ireland, Italy, Malta, Spain, and Switzerland, which also are subject to income taxes imposed by the jurisdiction in which they operate. We have operations in Barbados and the United Arab Emirates, which are not subject to income tax under the laws of those countries.

In 2017, the SEC issued Staff Accounting Bulletin ("SAB") No. 118 which permitted the recording of provisional amounts related to the impact of the U.S. Tax Cuts and Jobs Act of 2017 (the "TCJA") during a measurement period not to exceed one year from the enactment date of the TCJA. In 2017 and 2018 we recorded provisional amounts for certain enactment-date effects of the TCJA by applying guidance in SAB 118 because we had not yet completed the enactment-date accounting for these effects. Upon further analysis of the TCJA and notices and regulations issued and proposed by the United States Department of Treasury and the Internal Revenue Service, we finalized our calculations and completed our accounting for the enactment-date income tax effects of the TCJA in December 2018. Our accounting for these items is now complete. Current period adjustments related to the provisional items were immaterial.

The following table presents the components of income tax (benefit) provision expense included in the amounts reported in our consolidated financial statements:

	For the Years Ended December 31,	
(in millions)	**2018**	**2017**
Current income tax (benefit) provision related to:		
United States	13.4	(0.3)
United Kingdom	1.4	0.3
Other jurisdictions	0.1	0.2
Total current income tax provision	14.9	0.2
Deferred income tax (benefit) provision related to:		
United States	(13.8)	(0.3)
United Kingdom	(1.4)	(10.6)
Other jurisdictions	0.2	—
Total deferred income tax (benefit) provision	(15.0)	(10.9)
Income tax (benefit) provision	(0.1)	(10.7)

Our expected income tax provision computed on pre-tax income (loss) at the weighted average tax rate has been calculated as the sum of the pre-tax income (loss) in each jurisdiction multiplied by that jurisdiction's applicable statutory tax rate. For the years ended December 31, 2018 and 2017, pre-tax income (loss) attributable to our operations and the operations' effective tax rates were as follows:

(in millions)	2018		2017	
	Pre-Tax Income (Loss)	Effective Tax Rate	Pre-Tax Income (Loss)	Effective Tax Rate
Bermuda	$ 47.9	— %	$ 64.2	— %
United States	13.5	(5.6)%	66.9	(0.9)%
United Kingdom	0.1	— % [3]	(54.3)	18.9 %
Belgium	— [1]	— % [3]	0.1	75.0 %
Brazil	(0.5)	— %	0.8	— %
United Arab Emirates	0.8	— %	0.2	— %
Ireland [2]	(0.2)	— %	(0.2)	— %
Italy	0.9	— %	—	— %
Malta	1.7	— %	0.3	— %
Switzerland	0.1	18.4 %	— [1]	21.1 %
Pre-tax income	$ 64.3	(0.1)%	$ 78.0	(13.7)%

(1) Pre-tax income for the respective year was less than $0.1 million.

(2) Effective tax rate of 5 percent on intercompany dividends of $40.0 million for the year ended December 31, 2016. Dividends eliminated in consolidation.

(3) Not Meaningful

Our effective tax rate may vary significantly from period to period depending on the jurisdiction generating the pre-tax income (loss) and its corresponding statutory tax rate. The geographic distribution of pre-tax income (loss) can fluctuate significantly between periods given the inherent nature of our business. A reconciliation of the difference between the provision for income taxes and the expected tax provision at the weighted average tax rate is as follows:

(in millions)	For the Years Ended December 31, 2018	2017
Income tax provision at expected rate	$ 3.3	$ 12.9
Tax effect of:		
Nontaxable investment income	(1.9)	(4.7)
Foreign exchange adjustments	(0.1)	1.9
Withholding taxes	0.4	0.4
Change in valuation allowance	1.0	(1.8)
Impact of change in tax rate related to TCJA	(1.6)	(20.2)
Other	(1.2)	0.8
Income tax provision	$ (0.1)	$ (10.7)

The net deferred tax liability comprises the tax effects of temporary differences related to the following assets and liabilities:

	December 31,	
(in millions)	2018	2017
Deferred tax assets:		
Losses and loss adjustment expense reserve discounting	$ 19.3	$ 17.2
Unearned premiums	23.2	21.4
Net operating loss carryforwards	31.6	18.3
Investment in Limited Partnership Interests	12.0	10.4
Unrealized losses on fixed maturities and other investment securities	9.0	—
Impairment of investment values	2.2	4.0
Accrued bonus	4.5	2.6
Stock option expense	1.7	2.0
United Kingdom underwriting results	—	3.9
Other	8.0	9.6
Deferred tax assets, gross	111.5	89.4
Deferred tax liabilities:		
Unrealized gains on equity securities	(13.1)	(30.5)
Unrealized gains on fixed maturities and other investment securities	—	(5.0)
Unrealized gains on limited partnership interests	(17.3)	(14.6)
Depreciable fixed assets	(27.0)	(22.5)
Deferred acquisition costs	(18.1)	(16.9)
TCJA reserve transitional liability	(4.5)	(5.5)
United Kingdom underwriting results	(0.6)	—
Other	(7.2)	(6.2)
Deferred tax liabilities, gross	(87.8)	(101.2)
Deferred tax (liabilities) assets, net before valuation allowance	$ 23.7	$ (11.8)
Valuation allowance	(29.9)	(16.5)
Deferred tax liabilities, net	$ (6.2)	$ (28.3)
Net deferred tax (liabilities) assets - Other jurisdictions	$ (0.6)	$ 4.2
Net deferred tax liabilities - United States	(5.6)	(32.5)
Deferred tax liabilities, net	$ (6.2)	$ (28.3)

Our gross deferred tax assets (liabilities) are supported by taxes paid in previous periods, reversal of taxable temporary differences and recognition of future taxable income. Management regularly evaluates the recoverability of the deferred tax assets and makes any necessary adjustments to them based upon any changes in management's expectations of future taxable income. Realization of deferred tax assets is dependent upon our generation of future taxable income sufficient to recover tax benefits that cannot be recovered from taxes paid in the carryback period, generally for our U.S. property and casualty insurers two years for net operating losses and for all our U.S. subsidiaries three years for capital losses. If a company determines that any of its deferred tax assets will not result in future tax benefits, a valuation allowance must be established for the portion of these assets that are not expected to be realized. The net change in valuation allowance for deferred tax assets was an increase of $13.4 million in 2018, relating to the items discussed below. Based upon a review of our available evidence, both positive and negative discussed above, our management concluded that it is more-likely-than-not that the other deferred tax assets will be realized.

Management has determined that a valuation allowance is required for a portion of the tax-effected net operating loss carryforward included as part of the United States consolidated group of $6.6 million generated from PXRE Corporation and for the tax effected net operating loss carryforward of $0.6 million from ARIS. The valuation allowances have been established pursuant to Internal Revenue Code Section 382 limits regarding the application of net operating loss carryforwards following an ownership change. The loss carryforwards available per year for both of these items are $2.8 million, as required by Internal Revenue Code Section 382.

Furthermore, due to cumulative losses incurred since inception, management has concluded that a valuation allowance is required for the full amount of the tax-effected net operating losses generated by our Brazil and Malta entities. Valuation allowances were acquired in our 2017 Ariel Re transaction as well as in the 2018 Ariscom transaction.

Accordingly, a valuation allowance is required as of December 31, 2018 of which $6.5 million relates to Brazil operations, $1.9 million relates to Malta operations, $1.4 million relates to Ariel Re operations, and $12.9 million relates to Ariscom, which is attributable to net operating loss ("NOL") carryforwards created before our acquisition of the entity and recorded as part of purchase accounting.

For tax return purposes, as of December 31, 2018, we had NOL carryforwards in Brazil, Italy, Malta, and the United States. The amount and timing of realizing the benefits of NOL carryforwards depend on future taxable income and limitation imposed by tax laws. Only a portion of the United States NOL carryforwards has been recognized as mentioned above in the consolidated financial statements and is included in net deferred tax liabilities. The NOL amounts by jurisdiction and year of expiration are as follows:

(in millions)	**December 31, 2018**	**Expiration**
Net operating loss carryforwards by jurisdiction		
Brazil	$ 11.5	Indefinite
Italy	41.0	Indefinite
Malta	5.5	Indefinite
United States	48.9	2025 - 2037

For any uncertain tax positions not meeting the “more-likely-than-not” recognition threshold, accounting standards require recognition, measurement and disclosure in a company’s financial statements. We had no material unrecognized tax benefits as of December 31, 2018, 2017 and 2016. Our United States subsidiaries are no longer subject to U.S. federal and state income tax examinations by tax authorities for years before 2014. Our United Kingdom subsidiaries are no longer subject to United Kingdom income tax examinations by Her Majesty’s Revenue and Customs for years before 2016.

14. Pension Benefits and Savings Plans

Argo Group US sponsors a qualified defined benefit plan and non-qualified unfunded supplemental defined benefit plans, all of which were curtailed effective February 2004. As of December 31, 2018 and 2017, the qualified pension plan was underfunded by $3.5 million and $2.7 million, respectively. The non-qualified pension plans were unfunded by $2.0 million and $2.2 million at December 31, 2018 and 2017, respectively. Underfunded and unfunded amounts are included in “Other liabilities” in our Consolidated Balance Sheets. Based on the current funding status of the pension plan, effects of the curtailment and expected changes in pension plan asset values and pension obligations, we do not believe any significant funding of the pension plan will be required during the year ending December 31, 2018. Net periodic benefit costs were minimal for the year ended December 31, 2018. Net periodic benefit cost were $0.2 million for the years ended December 31, 2017.

Substantially all of our employees are either eligible or mandated by applicable laws to participate in employee savings plans. Under these plans, a percentage of the employee’s pay may be or is mandated based on applicable laws to be contributed to various savings alternatives. The plans also call for our contributions under several formulae. Charges to income related to our contributions were $6.2 million and $6.0 million in 2018 and 2017, respectively.

15. Commitments and Contingencies

Argo Group’s subsidiaries are parties to legal actions incidental to their business. Based on the opinion of legal counsel, management believes that the resolution of these matters will not materially affect our financial condition or results of operations.

We have contractual commitments to invest up to $120.5 million related to our limited partnership investments at December 31, 2018. These commitments will be funded as required by the partnership agreements which can be called to be fulfilled at any time, not to exceed thirteen years.

16. Leases

We lease office space and equipment under lease agreements that expire at various intervals and are subject to renewal options at market rates prevailing at the time of renewal. At December 31, 2018, the future minimum payments under non-cancelable operating leases are as follows:

(in millions)	Amount Due
2019	$ 17.4
2020	17.7
2021	17.0
2022	14.3
2023	11.9
Thereafter	77.9
Total	$ 156.2

We incurred lease expense of $6.8 million and $5.5 million for the years ended December 31, 2018 and 2017, respectively.

17. Statutory Accounting Principles

Financial Information

The statutory capital and surplus for Argo Re and our principal operating subsidiaries was as follows:

Statutory capital and surplus [1]	**December 31,**	
(in millions)	**2018**	**2017**
Bermuda	$ 1,451.3	$ 1,489.1
United Kingdom [2]	357.3	330.3
United States	1,003.8	992.8

(1) Such amounts include ownership interests in affiliate insurance and reinsurance subsidiaries, as well as amounts related to intercompany transactions which are not eliminated on a standalone statutory basis.

(2) Capital on deposit with Lloyd's in U.S. Dollars

The statutory net income (loss) for Argo Re and our principal operating subsidiaries was as follows:

Statutory net income (loss) [1]	**For the Year Ended December 31,**	
(in millions)	**2018**	**2017**
Bermuda	$ 47.4	$ 55.1
United Kingdom [2]	(21.1)	(95.5)
United States	110.8	57.0

(1) Such amounts include ownership interests in affiliate insurance and reinsurance subsidiaries, as well as amounts related to intercompany transactions which are not eliminated on a standalone statutory basis.

(2) In U.S. Dollars

Dividends

As an insurance and reinsurance company, we depend on dividends and other permitted payments from our insurance subsidiaries to assist in the payment of cash dividends to Argo Group, for debt service and for our operating expenses. The ability of our insurance subsidiaries to pay dividends to us is subject to certain restrictions imposed by the jurisdictions of domicile that regulate our insurance subsidiaries and each jurisdiction has calculations for the amount of dividends that an insurance company can pay without the approval of the insurance regulator.

The payment of dividends to our shareholders is governed by the Bermuda Companies Act of 1981, as amended, which permits the payment of dividends so long as (i) we are not, or would not be after the payment, unable to pay our liabilities as they become due and (ii) the realizable value of our assets is in excess of our liabilities after taking such payment into account. In light of these restrictions, we have no material restrictions on dividend payments that may be made to our shareholders at December 31, 2018.

Argo Re is the direct subsidiary of Argo Group, and therefore, has direct dividend paying capabilities to the parent.

As of December 31, 2018, Argo Re's solvency and liquidity margins and statutory capital and surplus were in excess of the minimum levels required by the Insurance Act. As of December 31, 2018 and 2017, the minimum statutory capital and surplus required to be maintained by Argo Re was $320.4 million and $403.8 million, respectively.

Argo Re is generally prohibited from declaring or paying, in any financial year, dividends of more than 25% of its total statutory capital and surplus (as shown on its previous financial year's statutory balance sheet) unless it files (at least seven days before payment of such dividends) with the Bermuda Monetary Authority ("BMA") an affidavit signed by at least two directors (one of whom must be a Bermuda resident director if any of the insurer's directors are resident in Bermuda) and the principal representative stating that it will continue to meet its solvency margin and minimum liquidity ratio. Argo Re may not reduce its total statutory capital by 15% or more, as set out in its previous year's financial statements, unless it has received the prior approval of the BMA. Based on these regulatory restrictions, the maximum amount available for payment of dividends to Argo Group by Argo Re during 2019 without prior regulatory approval is $362.8 million.

In 2018, Argo Re paid a cash dividend of $36.5 million to Argo Group. The proceeds of the dividends were used to repay intercompany balances related primarily to the funding of dividend and interest payments and other corporate expenses. In 2017, Argo Re did not pay a dividend to Argo Group.

Our U.S. insurance subsidiaries file financial statements prepared in accordance with statutory accounting principles prescribed or permitted by insurance regulatory authorities of the state in which they are domiciled. The differences between statutory-based financial statements and financial statements prepared in accordance with GAAP vary between jurisdictions. The principal differences are that for statutory-based financial statements, deferred policy acquisition costs are not recognized, a portion of the deferred federal income tax asset is non-admitted, bonds are generally carried at amortized cost, certain assets are non-admitted and charged directly to surplus, a collectability allowance related to reinsurance recoverables is charged directly to surplus and outstanding losses and unearned premium are presented net of reinsurance.

As an intermediate insurance holding company, Argo Group US is largely dependent on dividends and other permitted payments from its insurance subsidiaries to service its debt, fund operating expenses and pay dividends to Argo Ireland. Various state insurance laws restrict the amount that may be transferred to Argo Group US from its subsidiaries in the form of dividends without prior approval of regulatory authorities. In addition, that portion of the insurance subsidiaries' net equity that results from the difference between statutory insurance principles and GAAP would not be available for dividends.

In December 2018, Argo Group U.S. received an ordinary dividend in the amount of $20.0 million in cash from Rockwood. In December 2016, Argo Group U.S. received an ordinary dividend in the amount of $18.1 million in cash from Rockwood. In December 2016, Argo Group U.S. received an ordinary dividend of $41.6 million from Argonaut Insurance Company. Argo Group U.S. did not receive dividends from its subsidiaries in 2017.

Argonaut Insurance Company is a direct subsidiary of Argo Group US and is regulated by the Illinois Division of Insurance. During 2019, Argonaut Insurance Company may be permitted to pay dividends of up to $89.6 million without approval from the Illinois Division of Insurance. Rockwood, a direct subsidiary of Argo Group US, is regulated by the Pennsylvania Department of Insurance. Rockwood may be permitted to pay dividends of up to $12.6 million without approval from the Pennsylvania Department of Insurance during 2019. Each department of insurance may require prior approval for the payment of all dividends, based on business and regulatory conditions of the insurance companies.

Argo Underwriting Agency Ltd. ("AUA") is our wholly-owned subsidiary through which we conduct the operations of Syndicates 1200 and 1910. Dividend payments from AUA to the immediate parent are not restricted by regulatory authority. Dividend payments will be subject to the earnings, operations, financial condition, capital and general business requirements of AUA.

On September 26, 2018 we realigned our internal ownership structure so that Ariel Corporate Member Ltd. ("ACML") became a direct subsidiary of AUA. ACML had previously been a subsidiary of Maybrooke Holdings, S.A.

Certain assets of our subsidiaries are pledged to regulatory agencies, serve as collateral for letters of credit or are assigned as the assets of the trade capital providers of our Lloyd's syndicate, and therefore, are not available funds that may be paid up as dividends to Argo Group. See Note 3, "Investments" for further discussion.

18. Insurance Assessments

We are required to participate in statutorily created insolvency guarantee and weather-related loss protection associations in all states in the U.S. where we are authorized to transact business. These associations were formed for the purpose of paying the claims of insolvent companies. We are assessed a pro-rata share of such claims based upon our premium writings, subject to a maximum annual assessment per line of insurance. Certain of these assessments can be recovered through premium tax offsets or policy surcharges. We do not believe that assessments on current insolvencies will have a material impact on our financial condition or results of operations. We have accrued assessments of $6.4 million and $4.8 million at December 31, 2018 and 2017, respectively.

19. Transactions with Related Parties

In 2013, our Surety unit received a submission through its established broker network to issue approximately $13 million of surety bonds on behalf of Kinetica Partners, LLC ("Kinetica") in connection with a Gulf of Mexico pipeline project. Mr. Gary Woods, Chairman of our Board of Directors, is also the Chairman of the Board of Directors of Kinetica, and beneficially owns 10% of Kinetica through a family trust. The submission was underwritten, priced and bound in the ordinary course of business by the Surety unit. The terms and conditions of the surety bonds that were issued and the premium charged to Kinetica for issuance of the bonds, were consistent with those routinely applied and charged for similarly situated risks bound for unrelated third-parties. As of December 31, 2018, the surety bonds were still outstanding. Per the Surety unit's standard requirements in connection with the issuance of surety bonds, Kinetica and Mr. Woods, in his personal capacity, among others, executed our Surety unit's standard form of indemnity agreement holding our Surety unit harmless against any and all losses and expenses incurred resulting from the issuance of the surety bonds.

20. Subsequent Events

We have performed an evaluation of subsequent events through April 12, 2019, which is the date that the financial statements were issued. No reportable subsequent events were identified.
