for the years ended December 31, 2022 and December 31, 2021

# Pacific Life Re International Limited

## Independent Auditor's Report

---

### **Independent auditor's report to the members of Pacific Life Re International Limited**

#### **Report on the audit of the consolidated financial statements**

##### **Opinion**

In our opinion the consolidated financial statements of Pacific Life Re International Limited (the 'company'):

- give a true and fair view of the state of the company's affairs as at December 31, 2022 and the results of its operations for the year then ended;
- have been properly prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP).

We have audited the financial statements which comprise:

- the consolidated statements of financial condition;
- the consolidated statements of operations;
- the consolidated statements of comprehensive income (loss);
- the consolidated statements of shareholder's equity;
- the consolidated statements of cash flows; and
- notes to the consolidated financial statements, including a summary of significant accounting policies, except for note 2 as marked.

The financial reporting framework that has been applied in their preparation is the United States of America Generally Accepted Accounting Principles.

##### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the consolidated financial statements section of our report.

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

##### **Conclusions relating to going concern**

In auditing the consolidated financial statements, we have concluded that the management's use of the going concern basis of accounting in the preparation of the consolidated financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the consolidated financial statements are authorized for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

# Pacific Life Re International Limited

## Independent Auditor's Report

---

### **Responsibilities of management**

Management is responsible for the preparation of the consolidated financial statements and for being satisfied that they give a true and fair view, and for such internal control as the management determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the management are responsible for assessing the company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

### **Auditor's responsibilities for the audit of the consolidated financial statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

A further description of our responsibilities for the audit of the consolidated financial statements is located on the FRC's website at: [www.frc.org.uk/auditorsresponsibilities](http://www.frc.org.uk/auditorsresponsibilities). This description forms part of our auditor's report.

### **Extent to which the audit was considered capable of detecting irregularities, including fraud**

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

We considered the nature of the company's industry and its control environment, and reviewed the company's documentation of their policies and procedures relating to fraud and compliance with laws and regulations. We also enquired of management about their own identification and assessment of the risks of irregularities.

We obtained an understanding of the legal and regulatory framework that the company operates in, and identified the key laws and regulations that:

- had a direct effect on the determination of material amounts and disclosures in the consolidated financial statements; and
- do not have a direct effect on the consolidated financial statements but compliance with which may be fundamental to the company's ability to operate or to avoid a material penalty. These included The Insurance Act 1978, and amendments thereto, The Insurance Account Rules 2016, Companies Act 1981, Life Insurance Act 1978, as amended and Insurance Accounts Regulations 1980.

We discussed among the audit engagement team including significant component audit teams and relevant internal specialists such as tax, actuarial, financial instrument and IT specialists regarding the opportunities and incentives that may exist within the organization for fraud and how and where fraud might occur in the consolidated financial statements.

As a result of performing the above, we identified the greatest potential for fraud in the following areas, and our specific procedures performed to address them are described below:

- The significant risk of fraud in assumptions used in the actuarial reserving pertaining to the valuation assertion. In response to this risk we performed the following:
  - Obtained an understanding of the relevant controls over the actuarial reserving process;

# Pacific Life Re International Limited

## Independent Auditor's Report

---

- Assessed the appropriateness of key management judgements used in the year end assumption setting process by studying the factors underlying morbidity and loss experience; and
- Assessed completeness and accuracy of the data used to support the experience and reserves calculation.
- The significant risk of fraud in revenue recognition, specifically pertaining to the cut-off assertion. In response to this risk we performed the following:
  - Tested relevant controls over the revenue recording process; and
  - Performed independent recalculation of year end revenue accruals based on the accrual methodology in order to assess that revenue has been recognized in the correct period, and;
  - Obtained newly signed contracts and assessed that the treaties are recorded in the correct accounting period.

In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override. In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments; assessed whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluated the business rationale of any significant transactions that are unusual or outside the normal course of business.

In addition to the above, our procedures to respond to the risks identified included the following:

- reviewing consolidated financial statement disclosures by testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the financial statements;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- enquiring of management and legal counsel concerning actual and potential litigation and claims, and instances of non-compliance with laws and regulations; and
- reading minutes of meetings of those charged with governance and reviewing correspondence with the Bermuda Monetary Authority.

### Use of our report

**This report is made solely to the company's members, as a body, in accordance with section 90 of the Bermuda Companies Act 1981. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company, for our audit work, for this report, or for the opinions we have formed.**

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

### 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **ORGANIZATION AND DESCRIPTION OF BUSINESS**

Pacific Life Re International Limited ("RIBM"), including its wholly owned and controlled subsidiaries, Pacific Life Re (Australia) Pty Limited ("PLRA"), Pacific Life Re Holdings Limited ("PLRH") and Pacific Life Re Limited ("PLRL"), is a wholly owned subsidiary of Pacific Life Re Global Limited ("RGBM"). RGBM is a wholly owned subsidiary of Pacific Life Re Holdings LLC ("PLRH LLC"), which is in turn wholly owned by Pacific LifeCorp ("PLC"). PLRH LLC is a limited liability company organized under the laws of Delaware. PLC is an intermediate Delaware stock holding company. PLC is a wholly owned subsidiary of Pacific Mutual Holding Company ("PMHC"), a Nebraska mutual holding company (and ultimate parent of the Company). Unless the context indicates otherwise, the terms "the Company" or "our" means RIBM and its consolidated subsidiaries. The Company provides life reinsurance solutions to its customers.

RIBM is a reinsurance carrier participating in PMHC's global life reinsurance division ("Pacific Life Re", "PL Re" or the "Division"). The Division operates through a Division Centre and five business units ("BU" or "Business Unit") based on geographic location and/or business channel, as follows: Pacific Life Re Europe ("Europe"), Pacific Life Re Asia ("Asia"), Pacific Life Re Australia ("Australia"), Pacific Life Re Retro ("Retro"), and UnderwriteMe.

RIBM was incorporated in Bermuda on November 22, 2019 and is licensed as a Class E long-term insurer by the Bermuda Monetary Authority ("BMA"). RIBM provides reinsurance services, via its branches, in the UK, Ireland and Singapore, as well as retrocession services for PLRA. From January 1, 2023, it also started to provide reinsurance services, via its branches in South Korea and Canada. RIBM provides reinsurance services, directly and via its branches, in the UK, Ireland and Singapore, as well as retrocession services for PLRA. From January 1, 2023, it also started to provide reinsurance and retrocession services, via its branches in South Korea and Canada.

PLRH, a UK domiciled holdings company, is a wholly owned and direct subsidiary of RIBM. PLRL, a wholly owned direct subsidiary of PLRH, is an international reinsurance company registered in the United Kingdom and regulated and authorized by the Prudential Regulatory Authority and the Financial Conduct Authority. Until January 1, 2022, PLRL wrote life reinsurance business in Europe, Asia, and Canada and provided retrocession services to PLRA. From January 1, 2022, PLRL only wrote new business in South Korea and Canada. On January 1 2023, the Canada and South Korea business were transferred to RIBM from PLRL. Having transferred all the business out of PLRL, PLRL has approved and commenced the process of cancelling all of its regulatory permissions in the UK legal entity and its branches. It is expected that PLRL will be fully deauthorized and then subsequently wound up in the first half of 2024. PLRH is expected to be wound up in the first half of 2024 alongside PLRL.

PLRA is a wholly owned Australia domiciled reinsurance company that is regulated and authorized by the Australian Prudential Regulation Authority ("APRA"), engaged in providing traditional reinsurance which includes individual and group life and health, disability, and critical illness and income protection reinsurance in Australia.

#### **Business Transfers and Restructuring**

The Division commenced a project ("Project Valentine") in 2019 to move the Division's headquarters to Bermuda and created two new regulated entities in Bermuda, RGBM and RIBM. On June 25, 2021, a Business Transfer Agreement was signed governing the transfer of business between PLRL and RIBM.

On July 1, 2021, two treaties written in the Singapore branch of PLRL were transferred to RIBM by means of individual novation of treaties. On January 1, 2022, the remaining reinsurance business written by the Singapore branch of PLRL was transferred to RIBM by means of individual novation of treaties. On the same day, the reinsurance business governed by English Law was transferred to RIBM by means of an insurance business transfer under Part VII of the Financial Services and Markets Act 2000 and

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

---

### 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

an additional business transfer under a Guernsey insurance business transfer scheme was completed with an effective date of January 1, 2022. The remaining Europe Business Unit treaties not written under English law were transferred to RIBM by means of individual novation of treaties with an effective date of January 1, 2022. The retrocession contract with PLRA was also novated to RIBM on January 1, 2022. Loan notes were issued by RIBM to PLRL as consideration for the transfers that occurred on January 1, 2022.

On January 1, 2022, the retrocession treaties between Pacific Life Insurance Company ("PLIC") and PLRL were novated to UK branch of RIBM.

On January 1, 2022, the retrocession treaty between RGBM and PLRL was novated to the UK branch of RIBM. On January 1, 2022, the retrocession treaty was recaptured.

On January 1, 2022, the retrocession treaty between Pacific Life Re (Australia) Pty Limited (PLRA) and PLRL was novated to RIBM. PLRL has no further obligations under that treaty, and all investment management and custody arrangements in relation to that business have also been contractually transferred to RIBM. APRA has designated RIBM as an 'appropriate retrocessionaire' of PLRA.

On January 1, 2023, the PLRL Canada Branch business was transferred to the Canada Branch of RIBM by way of individual novation of treaties. Loan notes were issued by RIBM to PLRL as consideration for the Canada business transfers. On January 1, 2023, the majority of Canadian market reinsurance business in RGBM was transferred to RIBM Canada branch through novation of individual treaties. On the same day the retrocession arrangement between PLRL Canada Branch and PLIC was recaptured. Also on January 1, 2023, RIBM Canada branch set up two new 75% retrocession treaties with RGBM, one for Protection and the other for Longevity business.

On January 1, 2023, the PLRL Korea Branch business was transferred to the Korea Branch of RIBM by way of a South Korean law portfolio transfer for cash.

Having transferred all the business out of PLRL during the period, PLRL has approved and commenced the process of cancelling all of its regulatory permissions in the UK legal entity and its branches. (The Singapore Branch of PLRL was deauthorized on June 8, 2022.) It is expected that PLRL will be fully deauthorized and then subsequently wound up in the first half of 2024.

PLRH is expected to be wound up in the first half of 2024 alongside PLRL.

#### Business Developments in 2022

The following are significant business developments that have had a notable impact on the Consolidated Financial Statements of the Company:

The Company implemented a new transaction structure transferring the Global Funded Solutions ("GFS") business in PLRL to RIBM UK branch on January 1, 2022, as part of the UK Part VII transfers. GFS business was set-up in 2021 to expand into the funded reinsurance solutions market by writing asset intensive business. Funded reinsurance involves reinsurance of both insurance and asset risks in the Company's chosen markets. It brings together the insurance risk pricing and management capability of the Company and the investment management capability of the affiliated company PLIC.

In 2021, when the first GFS transactions were written into PLRL, the business was 100% retroceded from PLRL to PLIC (the "2021 structure"). As PLRL bore no insurance risk, GFS business was accounted for under the deposit method under the arrangement, and this has remained the case following the transfer of all this GFS business from PLRL to RIBM UK Branch. The most significant

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

---

### 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

impact on the Consolidated Financial Statements under this transaction structure arises from fee income payable to the Company from PLIC, which is paid in advance as each contract incepts and is amortized annually as the fee is earned.

In 2022, there was a transaction written under the 2021 structure (i.e. written into the RIBM UK Branch) as well as transactions written directly into RIBM rather than via a branch, with insurance risk being retained. As RIBM retains insurance risk, insurance accounting is applied under the new structure.

#### **BASIS OF PRESENTATION AND PRINCIPLES OF CONSOLIDATION**

The accompanying Consolidated Financial Statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and include the accounts of RIBM and its wholly owned and controlled subsidiaries. All significant intercompany transactions and balances have been eliminated on consolidation.

The preparation of Consolidated Financial Statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the Consolidated Financial Statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

In developing these estimates, management makes subjective and complex judgments that are inherently uncertain and subject to material change as facts and circumstances develop. Management has identified the following estimates as critical, as they involve a higher degree of judgment and are subject to a significant degree of variability:

1. Other than temporary impairment ("OTTI") losses of investments - there is judgement on whether an impairment is permanent.
2. Value of business acquired ("VOBA") and deferred acquisition costs – there are estimates on projected premiums, and judgements on recoverability and deterioration of financial performance leading to premium deficiencies.
3. The liability for future policy benefits – estimates include cost of settling claims, reported and incurred but not reported claims.

For the purpose of these financial statements, "affiliated" and "related parties" refers to entities that are under common control of RIBM's ultimate parent, PMHC.

The Company has evaluated events subsequent to December 31, 2022 through April 19, 2023, the date the Consolidated Financial Statements were available to be issued, see Note 18.

#### **A. Investments**

Fixed maturity securities available for sale are reported at fair value, with unrealized gains and losses, net of deferred income taxes, recognized as a component of other comprehensive income (loss) ("OCI"). For asset-backed securities included in fixed maturity securities available for sale, the Company recognizes income using a constant effective yield based on anticipated prepayments and the estimated economic life of the securities. When estimates of prepayments change, the effective yield is recalculated to reflect actual payments to date and anticipated future payments.

Amortization of premium and accretion of discount on fixed maturity securities is recorded using the effective interest method.

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

---

### 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Net Investment income consists primarily of interest income net of investment management expenses, and is recognized on an effective interest basis.

Available for sale securities are initially measured at fair value with subsequent remeasurement to fair value at each reporting period recognized in OCI. The change in unrealized gains or losses on available for sale securities is included in OCI. The unrealized gains or losses on available for sale securities in Accumulated Other Comprehensive Income (loss) ("AOCI") are reclassified to net income once the investments are sold or when an impairment charge is recorded.

The Company's available for sale securities are assessed for OTTI, if impaired. If a decline in the fair value of an available for sale security is deemed to be other than temporary, the OTTI is recognized equal to the difference between the fair value and net carrying amount of the security. If the OTTI for a fixed maturity security is attributable to both credit and other factors, then the OTTI is bifurcated and the non credit-related portion is recognized in OCI while the credit portion is recognized in earnings, specifically OTTI. If the OTTI is related to credit factors only or management has determined that it is more likely than not going to be required to sell the security prior to recovery, the OTTI is recognized in earnings, specifically OTTI. OTTI is recognized under net investment gain in the Consolidated Statements of Operations.

The evaluation of OTTI is a quantitative and qualitative process subject to significant estimates and management judgment. The Company has controls and procedures in place to monitor securities and identify those that are subject to greater analysis for OTTI. The Company reviews and evaluates securities for potential OTTI at minimum on a semi-annual basis at the relevant investment committee.

In evaluating whether a decline in value is other than temporary, the Company considers many factors including, but not limited to, the following: the extent and duration of the decline in value; the reasons for the decline (credit event, currency, interest rate related, or spread widening); the ability and intent to hold the investment for a period of time to allow for a recovery of value; and the financial condition of and near-term prospects of the issuer.

For fixed maturity securities in unrealized loss positions, the Company evaluates whether it intends to sell, or will be required to sell the security before anticipated recovery of amortized cost. If a security meets either criteria, it is considered an OTTI. If a security does not meet either criteria, an analysis is performed on whether projected future cash flows are sufficient to recover the amortized cost.

Realized gains and losses on investment transactions are determined on a specific identification basis at trade date and are included in net investment gain.

#### B. Cash and Cash Equivalents

Cash and cash equivalents include all short-term, highly liquid investments with a maturity of three months or less from purchase date. Cash and cash equivalents consist primarily of operating bank accounts, investment cash and liquidity funds.

#### C. Restricted Cash

Restricted cash primarily consists of liquidity reserves related to security deposits, commitment fees, cash collateral and cash held in trusts.

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

---

### 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### D. Transfer of Entities Under Common Control

On January 1, 2021, as part of Project Valentine, the entire share capital of PLRH was contributed to RGBM from PLRH LLC, and on July 1, 2021 the entire share capital of PLRH was contributed to RIBM from RGBM. The results of operations for the Company for the year ended December 31, 2022 and for prior year December 31, 2021 include the results of PLRH as of the beginning of 2021 in accordance with U.S. GAAP guidance Accounting Standards Codification ("ASC" or "Codification") 805-50 on mergers of entities under common control.

#### E. Deferred Policy Acquisition Costs

The direct and incremental costs associated with the successful acquisition of new or renewal business, have been deferred to the extent that such costs are deemed recoverable from future premiums or gross profits. Such costs include commissions and allowances as well as certain costs of policy issuance and underwriting. Management of the Company performs periodic tests to determine that the cost of business acquired remains recoverable, and if financial performance significantly deteriorates to the point where a premium deficiency exists, the cumulative amortization is re-estimated and adjusted by a cumulative charge or credit to current operations.

Deferred acquisition costs related to traditional life insurance contracts, substantially all of which relate to long-duration contracts, are amortized over the premium-paying period of the related policies in proportion to the ratio of individual period premium revenues to total anticipated premium revenues over the life of the policy. Such anticipated premium revenues are estimated using the same assumptions used for computing liabilities for future policy benefits.

Modifications or exchanges of contracts that constitute a substantial contract change are accounted for as an extinguishment of the replaced contract resulting in a release of unamortized deferred acquisition costs, unearned revenue and deferred sales inducements associated with the replaced contract.

The development, and amortization, of deferred acquisition costs for the Company's products requires management to make estimates and assumptions. Actual results could differ materially from those estimates. Management of the Company monitors actual experience, and should circumstances warrant, will revise its assumptions and the related estimates.

#### F. Value of Business Acquired

At the acquisition date, VOBA is equal to the U.S. GAAP reserves less the fair value of liabilities ("FVL"). The FVL is calculated in accordance with the Codification's Fair Value Measurements and Disclosures Topic and is essentially the present value of policyholder liability cash flows. VOBA is amortized based on projected premiums. Management performs periodic tests to determine that VOBA remains recoverable, and if financial performance significantly deteriorates to the point where a premium deficiency exists, the cumulative amortization is re-estimated and adjusted by a cumulative charge or credit. Both annual amortization and any adjustment to cumulative amortization is charged to the current year's Consolidated Statements of Operations.

#### G. Retrocession recoverables from affiliates and non-affiliates

Retrocession recoverables are balances due from retrocessionaires for paid and unpaid losses. Amounts receivable and balances payable are offset for account settlement purposes for contracts where the legal right of offset exists, as the Company intends to settle on a net basis.

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

---

### 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### H. Other Assets

Other assets include balances due from affiliates.

If the Company determines that a contract does not expose it to a reasonable possibility of a significant loss from insurance risk, the Company records the contract on a deposit method of accounting with the net amount receivable reflected in other assets on the Consolidated Statements of Financial Condition. Amounts receivable and balances payable are offset for account settlement purposes for contracts where the legal right of offset exists, as the Company intends to settle on a net basis.

Other assets also include prepayments, leases, as detailed in section R, as well as property, plant and equipment. Property, plant and equipments are recorded at cost and depreciated over their useful lives, estimated between 1 and 3 years.

#### I. Future Policy Benefits

The liability for future policy benefits includes a liability for unpaid claims, established based on the Company's estimated cost of settling all claims. Unpaid claims include estimates of claims reported and those that the Company believes have been incurred but have not yet been reported as of the Consolidated Statements of Financial Condition date. The estimates used to determine the liability for unpaid claims are derived principally from the Company's historical experience.

Insurance reserves are composed of benefit reserves and additional liabilities. Benefit reserves are valued using the net level premium method on the basis of actuarial assumptions appropriate at policy issue, including a margin for possible unfavorable deviations. Mortality and persistency assumptions are generally based on the Company's experience, which, together with interest and expense assumptions, are "locked in" upon the issuance of new business. Although certain assumptions are "locked in", significant changes in experience or assumptions may require us to provide for expected future losses on a product by establishing premium deficiency reserves. Premium deficiency reserves are determined based on best estimate assumptions that exist at the time the premium deficiency reserve is established and do not include a provision for adverse deviation.

Profit sharing exists in some contracts in the form of an experience refund provision. Where applicable, projected future experience refund payments net of past losses carried over from prior period, to the extent these losses are deemed recoverable from future profits, are included in the calculation of reserve for future policy benefits.

Estimates of future policy benefit reserves and liabilities are continually reviewed and, as experience develops, are adjusted as necessary. The Company may also identify and implement actuarial modelling refinements to projection models that may result in increases and decreases to the liability for future policy benefits. Such changes in estimates are included in earnings for the period in which such changes occur.

Where future policy benefits are in an asset position they are recognized as negative reserves in the Consolidated Statement of Financial Condition. Reinsurers share of negative reserves are recognized as liabilities in the Consolidated Statement of Financial Condition.

#### J. Reinsurance Balances Payable

Balances payable to affiliates result from a retrocession contract for certain reinsurance business between RIBM (2021: PLRL), and PLIC, as described further in Note 15. Balances payable to non-affiliates represent amounts owed that are resulting from the agreements between these non-affiliates and the Company. Amounts receivable and balances payable are offset for account settlement purposes for contracts where the right of offset exists.

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

---

### 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### K. Reinsurance

In the ordinary course of business, the Company has ceded retrocession agreements with affiliates and other insurance companies to limit potential losses and reduce exposure arising from larger risks. The ceding of risk does not discharge the Company from its primary obligations to retrocedents. To the extent that the retrocessionaires become unable to meet their obligations under reinsurance contracts, the Company remains contingently liable. Each retrocessionaire is reviewed to evaluate its financial stability before entering into each retrocession contract and throughout the period that the reinsurance contract is in place.

As part of its risk management process, the Company routinely evaluates its retrocession programs and may change retention limits, retrocessionaires, or other features at any time. Retention is managed across all affiliated entities on a group basis.

The Company utilizes reinsurance accounting for ceded and assumed transactions when risk transfer provisions have been met. To meet risk transfer requirements, a reinsurance contract must include insurance risk, consisting of both underwriting and timing risk, and a reasonable possibility of a significant loss to the reinsurer.

Reinsurance premiums ceded and reinsurance recoveries on benefits and claims incurred are deductible from their respective revenue, benefit and expense accounts. Prepaid reinsurance premiums, included in other assets, are premiums that are paid in advance for future coverage. Amounts receivable and payable to reinsurers are offset for account settlement purposes for contracts where the right of offset exists, with net reinsurance receivables included in other assets and net reinsurance payables included in other liabilities. Reinsurance receivables and payables may include balances due from reinsurance companies paid and unpaid losses. Reinsurance terminations and recapture gains are recorded in other income.

#### L. Accounts Payable and Other Liabilities

Accounts payable and other liabilities consist primarily of various expense accruals and other payables to affiliates and non-affiliates. These are stated initially at fair value and subsequently measured at amortized cost. Exchange gains and losses arising in respect of liabilities in foreign currency are added to the carrying amount of the respective liability.

The Company recognizes a deferred fee income in relation to fee income received up-front by RIBM (2021: PLRL) for acquisition related activities it performs, see section N, *Revenue, Benefits and Expenses*, for details on the fee income.

Other liabilities also include leases, as detailed in section Q.

#### M. Foreign Currency

The reporting currency for these Consolidated Financial Statements is the United States Dollar ("USD"). The Company, due to its subsidiaries and branches, uses four functional currencies; USD, Great British Pound ("GBP"), Canadian Dollars ("CAD"), Australian Dollar ("AUD") and South Korean won ("KRW"). A functional currency is defined as the currency of the primary economic environment in which an entity operates. The translation of the functional currencies into USD is performed for asset and liability accounts using current exchange rates in effect as of the last day of the year and for revenue and benefit and expense accounts using the quarterly average rates. Gains or losses, net of applicable deferred income taxes, resulting from such translation are recognized in OCI in the Consolidated Statements of Comprehensive Income (Loss) and accumulated in AOCI in the Consolidated Statements of Financial Condition.

Gains or losses from foreign currency transactions, including the effect of remeasurement of foreign-denominated monetary assets and liabilities to the appropriate functional currency, are recognized in realized foreign currency losses in the Consolidated Statements of Operations in the period in which they occur.

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

---

### 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### N. Revenues, Benefits and Expenses

Reinsurance premiums from life policies and health policies with life contingencies are recognized as revenue when due from policyholders. Life policies include those contracts with fixed, variable and guaranteed premiums and benefits, and consist principally of whole life, universal life and term insurance policies. Health policies consist of individual critical illness and disability risk coverages. Retrocession premiums and retrocession recoveries on benefits and claims incurred are deducted from their respective revenue, benefit and expense accounts.

Benefits and expenses are provided for as premiums are earned so as to result in the recognition of profits over the life of the contracts. This is achieved by means of the provision for future policy benefits and deferral and subsequent amortization of DAC and VOBA.

For each of its reinsurance contracts, the Company must determine if the contract provides indemnification against loss or liability relating to insurance risk, consisting of both underwriting and timing risk, and a reasonable possibility of a significant loss to the Company or retrocessionaire, in accordance with applicable accounting standards. To meet risk transfer requirements, a reinsurance contract must include insurance risk.

If the Company determines that a contract does not expose it to a reasonable possibility of a significant loss from insurance risk, the Company records the contract on a deposit method of accounting with the net amount payable/receivable reflected in other liabilities or assets on the Consolidated Statements of Financial Condition. Fees earned on the contracts are reflected as other income on the Consolidated Statements of Operations.

Fee Income is recognized as revenue, in line with ASC 606 Revenue Recognition, such that the performance obligations are satisfied over time whereby on execution of the contract, the Company shall recognize a percentage of the fee which is considered to be the stand-alone transaction price for acquisition related activities it performs. Thereafter, annually, it shall recognize a percentage of the fees, which is considered to be the stand-alone transaction price for maintenance related activities it performs.

#### O. Income Taxes

Under the provisions of the Bermuda Exempted Undertakings Tax Protection Act of 1966, the Company is exempt from paying any taxes on Bermuda profits during its first fifteen years of operation. The Company obtains a Tax Assurance Certificate and is exempt from paying any taxes on Bermuda profits until March 31, 2035.

The Company accounts for income taxes under the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the Consolidated Financial Statements. Under this method, the Company determines deferred tax assets and liabilities on the basis of the differences between the Consolidated Financial Statements and tax bases of assets and liabilities by using enacted tax rates in effect for the year in which the differences are expected to reverse.

The Company recognizes deferred tax assets to the extent that these assets are more likely than not to be realized.

The Company records uncertain tax positions in accordance with the Accounting Standards Codification's (Codification) Income Taxes Topic on the basis of a two-step process in which (1) the Company determines whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the position and (2) for those tax positions that meet the more-likely-than-not recognition threshold, the Company recognizes the largest amount of tax benefit that is more than 50 percent likely to be realized upon ultimate settlement with the related tax authority. As of December 31, 2022, the Company had no liability for uncertain tax positions.

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

---

### 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company recognizes interest and penalties related to unrecognized tax benefits in the provision (benefit) for income taxes in the Consolidated Statements of Operations. Accrued interest and penalties are included in other liabilities in the Consolidated Statements of Financial Condition.

The Company is treated as a controlled foreign corporation for U.S. federal income tax purposes in 2021, and elected to be treated as a disregarded entity for U.S. federal income tax purposes before 2021. Its activities are reflected in the tax calculation of RGBM, which is an includible member of the consolidated Federal income tax return of PMHC. RGBM and other members of PMHC consolidated U.S. tax return allocate tax expense or benefit based principally on the effect of including their operations in the return under a tax sharing agreement. PLRA and PLRL are treated as controlled foreign corporations for U.S. federal income tax purposes. PLRA is subject to tax in Australia. PLRL is subject to tax in the UK, as well as Singapore, Canada and South Korea through its branches.

PLRL made a branch profits exemption election ("BPE") which was notified to HMRC on December 22, 2020, with an effective date of January 1, 2021. The overseas branches of PLRL were subject to tax in the UK prior to the election, but are no longer subject to UK tax after the election. The Singapore, Canada, and South Korea branches were subject to tax in their local jurisdictions up until the transfers to RIBM.

RIBM through its branches is subject to tax in the UK and Singapore, while RIBM will be subject to Canada and South Korea taxes through its branches once the business transfers have been completed to these branches as of January 1, 2023.

RGBM considers the earnings in the foreign subsidiary to be indefinitely invested outside the U.S. on the basis of estimates that future domestic cash generation will be sufficient to meet future domestic cash needs and specific plans for reinvestment of those subsidiary earnings. Accordingly, deferred income taxes have not been recorded for any excess of the amount for financial reporting over the tax basis in its non-U.S. subsidiaries, including undistributed earnings.

In 2022, the Korean National Assembly officially passed the 2022 Tax Revision Bill, decreasing the corporate tax rate by 1% from 25% to 24%. The new tax rate is applicable to years 2023 and onward. Utilization of tax loss is limited to 70% of taxable income for years beginning on or after January 1, 2018 and to 60% of taxable income from years beginning on or after January 1, 2019.

The U.K. passed tax legislation applicable to the Company in 2022. Beginning on April 1, 2023, the tax corporate tax rate will increase from 19% to 25%.

### P. Contingencies

The Company evaluates all identified contingent matters on an individual basis. A loss is recorded if the contingent matter is probable of occurring and reasonably estimable. The Company establishes reserves for these contingencies at the best estimate, or, if no one amount within the range of possible losses is more probable than any other, the Company records an estimated reserve at the low end of the range of losses.

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

---

### 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Q. Leases

The Company assesses whether a contract is or contains a lease, at inception of the contract. The Company recognizes a right-of-use asset and a corresponding lease liability in the Consolidated Statement of Financial Condition, with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less). For leases classified as operating, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the rate implicit in the lease or if that rate cannot be readily determined, the lessee's incremental borrowing rate.

#### R. Future Adoption of Accounting Pronouncements

In 2018, the Financial Accounting Standards Board ("FASB") issued targeted improvements to the accounting for long-duration insurance contracts, Accounting Standards Update ("ASU") 2018-12. The objective of this guidance is to make improvements to the existing recognition, measurement, presentation, and disclosure requirements for long-duration contracts issued by an insurance entity. The new guidance improves the timeliness of recognizing changes in the liability for future policy benefits for traditional long-duration contracts by requiring that underlying cash flow assumptions be reviewed and updated at least annually. The rate used to discount future cash flows must be based on an upper-medium grade fixed income investment yield. The change in the reserve estimate as a result of updating cash flow assumptions will be recognized in net income. The change in the reserve estimate as a result of updating the discount rate assumption will be recognized in OCI.

The new guidance simplifies the amortization of deferred policy acquisition costs and other similar capitalized balances (i.e. Unearned Revenue Reserves ("URR")) by requiring such costs to be amortized on a constant-level basis that approximates the straight-line method. Lastly, the new guidance increases and enhances the disclosures related to long-duration insurance contracts. The new guidance is effective for fiscal years beginning after December 15, 2024 and interim periods within fiscal years beginning after December 15, 2025. Early adoption is permitted. The Company is currently evaluating the impact of this guidance on its Consolidated Financial Statements.

In March 2020, the FASB issued ASU 2020-04, which together with all subsequent amendments, provides guidance on facilitation of the effects of reference rate reform on financial reporting. The new guidance provides optional expedients and exceptions for applying U.S. GAAP to contracts, hedging relationships and other transactions affected by reference rate reform. If certain criteria are met, an entity will not be required to remeasure or reassess certain contract modifications that result from the discontinuation of the London Inter-Bank Offered Rate (LIBOR) or another reference rate. Changes to the critical terms of a hedging relationship affected by reference rate reform will not require entities to de-designate the relationship if certain criteria are met. Optional expedients also allow derivative instruments impacted by changes in the interest rate used for margining, discounting, or contract price alignment to qualify for certain optional relief. This standard may be elected and applied to contract modifications made between March 12, 2020 through December 31, 2024. The Company has evaluated the impact of the discontinued use of LIBOR in its contract obligations and taken actions to update contracts where necessary. The Company is currently evaluating the impact of this guidance on its Consolidated Financial Statements.

In 2016, the FASB issued ASU 2016-13 that provides guidance on the measurement of credit losses for certain financial assets. This ASU replaces the incurred loss impairment methodology with one that reflects expected credit losses. The measurement of expected credit losses should be based on historical loss information, current conditions, and reasonable and supportable forecasts. The guidance also requires enhanced disclosures. This ASU is effective for fiscal years beginning after December 15, 2022 and interim periods within those fiscal years. The Company is currently evaluating the impact of this guidance on its Consolidated Financial Statements.

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

---

### 2. CAPITAL MANAGEMENT (unaudited)

#### **RIBM DIVIDEND AND DISTRIBUTION RESTRICTIONS**

The payment of dividends by RIBM to its shareholders is subject to restrictions set forth in the regulations of insurance business in Bermuda. RIBM may declare dividends subject to it continuing to meet the minimum levels of solvency, liquidity, and its risk-based capital requirements. For Bermuda regulatory purposes no dividend payments shall be made which would result in the Enhanced Capital Requirement ("ECR") falling below 135%. The ECR is calculated using the Bermuda Solvency Capital Requirement model which is a risk-based capital model.

Proposed dividends cannot exceed 25% of total unconsolidated statutory capital and surplus reported in the Company's statutory Consolidated Statements of Financial Condition in the previous financial year unless at least 7 days before payment of those dividends it files with the BMA an affidavit signed by at least two directors of RIBM (one of whom must be a director resident in Bermuda), and by RIBM's principal representative in Bermuda, which states that in the opinion of those signing, declaration of those dividends has not caused the entity to fail to meet its solvency margin requirements. Any dividend payable would also require certification by RIBM's approved actuary. The actuary shall ensure that the value of the Company's assets in excess of its liabilities is greater than the ECR and that the amount of any such dividend shall not exceed that excess. The BMA will be notified of the payment of any dividends as part of normal communications with the supervisory team.

At December 31, 2022, the maximum dividend that RIBM could pay out of retained earnings, based on the aforementioned regulatory requirements, was \$262.2 million (2021: \$364.0 million). The statutory financial return and capital and solvency return of the Company as at, and for the year ended, December 31, 2022 are due to be submitted to the BMA by April 30, 2023. The statutory financial return and capital and solvency return are subject to the review of the BMA.

#### **Restrictions to reduction of capital**

Capital reduction cannot exceed 15% of unconsolidated statutory capital reported in the Company's statutory Consolidated Statement of Financial Condition in the previous financial year unless the Company seeks for an approval from BMA. An application must include: an affidavit signed by at least two directors of RIBM (one of whom must be a director resident in Bermuda), and by RIBM's principal representative in Bermuda, which states that in the opinion of those signing, the proposed reduction of capital will not cause the entity to fail to meet its relevant margins. The BMA will be notified of any reduction in the capital as part of the Company's normal communications with the supervisory team.

At December 31, 2022, the maximum reduction in capital which RIBM could pay out of unconsolidated statutory capital without BMA approval is \$98.2 million (2021: \$251.3 million).

In addition to the required statutory capital and surplus requirements the Company assesses its own solvency capital needs taking into account factors which may not be fully reflected in the BMA statutory requirements. The Company's solvency capital requirements determined under these self-assessments may also impact the level of dividends and distributions paid to its parent, RGBM.

#### **PLRA DIVIDEND RESTRICTIONS**

PLRA is subject to minimum regulatory capital requirements in accordance with APRA Prudential Standards relevant to life insurers, in respect of the principal risks to which PLRA is exposed. In particular, minimum capital requirements in this context is the minimum capital base required to meet the Prudential Capital Amount (PCA) and, where different, the Prudential Capital Requirement (PCR) as defined in the Prudential Standards.

PLRA monitors and maintains capital in accordance with its Board adopted Internal Capital Adequacy Assessment Process ("ICAAP"). This ensures that there is a low likelihood that PLRA will breach its regulatory requirements, and that PLRA will have

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

---

### 2. CAPITAL MANAGEMENT (unaudited) (continued)

sufficient capital to manage its near term business prospects and be able to take necessary action to deal with reasonably foreseeable adverse events that may impact the business.

Surplus capital above the Prudential Capital Amount at December 31, 2022 was \$80.8 million (2021: \$129.5 million).

#### **PLRL DIVIDEND RESTRICTIONS**

PLRL is required to hold sufficient capital to meet Solvency II regulatory requirements. A regulatory solvency ratio, which is the ratio of eligible capital resources to Solvency Capital Requirement ("SCR"), is used to report PLRL's solvency position to the Prudential Regulatory Authority ("PRA") on a quarterly basis, in accordance with the Solvency II regime.

Solvency monitoring is performed quarterly and presented to the Chief Finance Officer and the Approved Actuary using three levels of triggers to determine when additional capital or other action is required.

Surplus capital can be distributed to shareholders subject to restrictions with regard to the level of distributable profits that are available in accordance with the Companies Act 2006 (UK).

The SCR and total available capital resources as at December 31, 2022 was \$244.2 million and \$387.3 million, respectively, and the surplus capital above the SCR was \$143.1 million.

<b>As of December 31, 2021:</b>	<b>Fair Value</b>	<b>Unrealized Losses</b>	<b>Fair Value</b>	<b>Unrealized Losses</b>	<b>Fair Value</b>	<b>Unrealized Losses</b>
<i>(in thousands)</i>	\$	\$	\$	\$	\$	\$
Debt securities issued by the U.S. Treasury and other U.S. government corporations and agencies	14,998	(469)	230,001	(1)	244,999	(470)
Debt securities issued by foreign governments	162,188	(4,575)	154,813	(9,200)	317,001	(13,775)
Corporate debt securities	303,927	(7,315)	102,468	(4,404)	406,395	(11,719)
Residential mortgage-backed securities	—	—	1,023	(276)	1,023	(276)
<b>Total fixed maturity securities</b>	<b>481,113</b>	<b>(12,359)</b>	<b>488,305</b>	<b>(13,881)</b>	<b>969,418</b>	<b>(26,240)</b>

The number of securities in the Company's portfolio with an unrealized loss position for less than 12 months as of December 31, 2022 were 307 (2021: 131). The number of securities in an unrealized loss position for 12 months or greater as of December 31, 2022 were 121 (2021: 62).

The Company has evaluated fixed maturity securities available for sale with gross unrealized losses and has determined that the unrealized losses are temporary. The Company does not intend to sell the investments as a result of these losses and it is more likely than not that the Company will not be required to sell the investments before recovery of their net carrying amounts.

Certain assets related to RIBM's reinsurance business (Note 17) are held as collateral. If the fair market value of the assets in these trusts falls below a minimum value, the Company is required to deposit additional funds to account for any shortfall. As of December 31, 2022, fixed maturity securities available for sale and restricted cash with a fair value of \$738.6 million and \$20.7 million (2021: \$351.0 million and \$16.9 million), respectively, were held in these trusts.

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

### 3. INVESTMENTS (continued)

Major categories of the Company's investment income and related investment expense are summarized as follows:

<b>Year ended December 31:</b>	<b>2022</b>	<b>2021</b>
<i>(in thousands)</i>	<b>\$</b>	<b>\$</b>
Fixed maturity securities	59,409	46,310
Other	82	—
<b>Total investment income</b>	<b>59,491</b>	<b>46,310</b>
Interest on funds withheld	(1,286)	(977)
Investment expense	(2,873)	(3,502)
<b>Net investment income</b>	<b>55,332</b>	<b>41,831</b>

The components of net investment gain are as follows:

<b>Year ended December 31:</b>	<b>2022</b>	<b>2021</b>
<i>(in thousands)</i>	<b>\$</b>	<b>\$</b>
Fixed maturity securities:		
Gross gains on sales	14,969	6,545
Gross losses on sales	(27,990)	(2,398)
Fair value movement on funds withheld	47,348	19,515
<b>Net investment gain</b>	<b>34,327</b>	<b>23,662</b>

On January 1, 2022, the formerly PLRL to PLIC retrocession was transferred from PLRL to RIBM UK branch with PLIC remaining as the retrocessionaire. There is one block of Annuity business and two blocks of Longevity Swap business for which the retrocession gives PLIC a security interest in the underlying custody assets held by the Company. The custody assets are measured at fair value with movements in fair value recognized in OCI. The Company recognizes a corresponding funds withheld liability at fair value in accordance with U.S. GAAP ASC 820 Fair Value Measurement, with movements in fair value recognized in the Consolidated Statements of Operations.

The funds withheld liability increases or decreases in line with the fair value of the custody assets.

A fair value gain of \$47.3 million (2021: \$19.5 million gain) was recognized in the Consolidated Statements of Operations during the year.

## Notes to Consolidated Financial Statements

### 4. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Codification's Fair Value Measurements and Disclosures Topic establishes a hierarchy that prioritizes the inputs of valuation methods used to measure fair value for financial assets and financial liabilities that are carried at fair value. The determination of fair value requires the use of observable market data when available. The hierarchy consists of the following three levels that are prioritized based on observable and unobservable inputs.

- Level 1** Unadjusted quoted prices for identical instruments in active markets. Level 1 financial instruments include securities that are traded in an active exchange market.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in inactive markets; and model-derived valuations for which all significant inputs are observable market data.
- Level 3** Valuations derived from valuation techniques in which one or more significant inputs are not market observable.

The following tables present, by fair value hierarchy level, the Company's financial assets and liabilities that are carried at fair value as of December 31, 2022 and December 31, 2021.

<b>As of December 31, 2022:</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>

### 4. FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

The following methods and assumptions were used to estimate the fair value of these financial instruments:

#### **FAIR VALUE MEASUREMENT**

The Codification's Fair Value Measurements and Disclosures Topic defines fair value as the price that would be received to sell the asset or paid to transfer the liability at the measurement date. This "exit price" notion is a market-based measurement that requires a focus on the value that market participants would assign for an asset or liability. The following section describes the valuation methodologies used by the Company to measure various types of financial instruments at fair value and the controls that surround the valuation process. The Company reviews its valuation methodologies and controls on an ongoing basis and assesses whether these methodologies are appropriate based on the current economic environment.

#### **FIXED MATURITY SECURITIES**

The fair values of fixed maturity securities available for sale are determined by management after considering external pricing sources and internal valuation techniques.

For securities with sufficient trading volume, prices are obtained from third-party pricing services. Fair values for mortgage-backed securities and other asset-backed securities are determined by evaluating prices from third-party pricing services.

The Company's management analyses and evaluates these prices and determines whether they are reasonable estimates of fair value. Management's analysis may include, but is not limited to, review of third-party pricing methodologies and inputs, analysis of recent trades, comparison to prices received from other third parties, and development of internal models utilizing observable market data of comparable securities. Based on this analysis, prices received from third parties may be adjusted if the Company determines that there is a more appropriate fair value based on available market information. All securities priced by a major independent third-party service have been classified as Level 2, as management has verified that the inputs used in determining their fair values are market observable and appropriate. The Company only invests in highly liquid investment grade credit. The fair values of fixed maturity securities available for sale are determined by reference to third party pricing sources.

The Company did not have any significant nonfinancial assets or liabilities measured at fair value on a nonrecurring basis resulting from impairments as of December 31, 2022 (2021: nil). The Company has not made any changes in the valuation methodologies for nonfinancial assets and liabilities.

The fair value table excludes the following financial instruments: accrued investment income, receivables and payables. The fair value of these financial instruments, which are primarily classified as Level 2, approximates carrying value as they are short-term in nature such that there is minimal risk of material changes in fair value due to changes in interest rates.

#### **CASH, CASH EQUIVALENTS AND RESTRICTED CASH**

Cash, cash equivalents and restricted cash are considered Level 1. The carrying amounts approximate fair values due to the short-term maturities of these instruments.

<b>Net carrying value at December 31</b>	<b>2,274</b>	<b>3,052</b>

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

### 6. VALUE OF BUSINESS ACQUIRED (continued)

The estimated aggregate amortization expense for each of the five succeeding fiscal years is as follows:

<b>Years ended December 31, 2022:</b>	
<i>(in thousands)</i>	<b>\$</b>
2023	360
2024	314
2025	271
2026	226
2027	185
<b>Years ended December 31, 2021:</b>	
<i>(in thousands)</i>	<b>\$</b>
2022	574
2023	483
2024	418
2025	360
2026	297

### 7. OTHER ASSETS

Components of the Company's other assets are as follows:

<b>As of December 31:</b>	<b>2022</b>	<b>2021</b>
<i>(in thousands)</i>	<b>\$</b>	<b>\$</b>
Marketing advances	17,905	8,263
Prepayments	7,678	12,321
Right-of-use assets	3,797	5,525
Amount due from affiliates	1,690	91
Property, plant and equipment	1,042	1,340
Miscellaneous	3,678	352
<b>Total other assets</b>	<b>35,790</b>	<b>27,892</b>

There are no receivables at December 31, 2022 (2021: nil) that have been assessed as impaired and no allowance for doubtful debts.

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

### 8. POLICYHOLDER LIABILITIES

#### FUTURE POLICY BENEFITS

Components of the Company's liability for future policy benefits are as follows:

<b>As of December 31:</b>	<b>2022</b>	<b>2021</b>
<i>(in thousands)</i>	<b>\$</b>	
Claims incurred but not reported	648,963	718,820
Unpaid claims and claim expenses	396,141	468,044
Future policy benefits	1,816,877	1,441,464
Unearned premiums	5,292	4,778
<b>Total future policy benefits</b>	<b>2,867,273</b>	<b>2,633,106</b>
Reinsurers share of negative reserves	324,643	252,231
Negative reserves	(431,873)	(359,006)
Retrocession recoverables from affiliates	(210,337)	(256,282)
Retrocession recoverables from non-affiliates	(20,846)	(41,329)
<b>Total net liability</b>	<b>2,528,860</b>	<b>2,228,720</b>

Reinsurers share of negative reserves are made up of ceded reserves due from RIBM (2021: PLRL) to PLIC in relation to the RIBM (2021: PLRL) to PLIC retrocession treaty as detailed in Note 15. Interest rate assumptions used to estimate life insurance reserves ranged from 0.0% to 8.8% (2021: 0.0% to 8.8%).

### 9. ACCOUNTS PAYABLE AND OTHER LIABILITIES

Components of the Company's accounts payable and other liabilities are as follows:

<b>As of December 31:</b>	<b>2022</b>	<b>2021</b>
<i>(in thousands)</i>	<b>\$</b>	<b>\$</b>
Deferred fee income	14,392	12,795
Accounts payable and accrued expenses	9,497	8,375
Lease liability	3,886	5,550
<b>Total accounts payable and other liabilities</b>	<b>27,775</b>	<b>26,720</b>

The deferred fee income comprises of fees paid to RIBM UK branch (2021: PLRL) in advance by PLIC with regards to the GFS business. This is unwound annually based on a percentage of the present value of remaining annuity payments under the contract.

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

### 10. LOANS AND PROMISSORY NOTES PAYABLE

On March 11, 2020, PLRL entered into a 5-year term loan facility of JPY 10 billion (with an option to expand for another JPY 5 billion) with Mitsubishi UFJ Financial Group ("MUFG"). The loan amount of JPY 10 billion was fully drawn in March 2020 and the expansion option was exercised partially to draw JPY 2.5 billion in September 2020. On October 18, 2021, PLRL amended the term loan to increase the total capacity from JPY 15 billion to JPY 20 billion. On October 22, 2021, PLRL drew an additional JPY 2.5 billion, reducing the uncommitted loan capacity to JPY 5 billion. Interest is calculated at the Tokyo Interbank Offered Rate plus an agreed margin. Effective January 1, 2022, RIBM became the primary borrower under the MUFG term loan and its obligations under the loan are guaranteed by PLC. The outstanding loan balance as at December 31, 2022 was \$114.4 million or JPY15 billion (2021: \$130.3 million or JPY15 billion). RIBM pays PLC a guarantee fee of 0.7% on the loan amount. The guarantee fee paid for the year ended December 31, 2022 was \$0.8 million.

On September 23, 2021, RIBM received a 1-year term promissory note of \$100 million from PLIC. There was an initial draw down of \$70 million, which was repayable as on September 30, 2022. Interest on the loan was calculated at a fixed rate of 0.7% on the drawn amount and 0.2% on the undrawn facility. The total interest paid for the year ended December 31, 2022 was \$0.3 million (2021: \$0.1 million), with an undrawn fee of \$0.02 million. This amount was fully repaid and the note was cancelled on May 6, 2022.

On November 2, 2022, RIBM entered into an uncommitted revolving credit facility with its ultimate parent, PMHC and various subsidiaries of PMHC, intended for short-term liquidity management purposes. The amount of credit facility will be agreed when drawdown and subject to regulatory requirements. No drawdowns have been made as of December 31, 2022.

### 11. REINSURANCE

The accounting for reinsurance requires extensive use of assumptions and estimates, particularly related to the future performance of the underlying business and the potential impact of counterparty credit risk. The Company periodically reviews, and modifies as appropriate, the estimates and assumptions used to establish assets and liabilities relating to assumed and ceded reinsurance

The components of net written premiums are as follows:

<b>Year ended December 31:</b>	<b>2022</b>	<b>2021</b>
<i>(in thousands)</i>	<b>\$</b>	<b>\$</b>
Reinsurance assumed	1,777,421	1,597,262
Ceded retrocession	(75,118)	(116,950)
<b>Net written premiums</b>	<b>1,702,303</b>	<b>1,480,312</b>

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

### 12. OTHER INCOME

The components of the Company's other income are as follows:

<b>Year ended December 31:</b>	<b>2022</b>	<b>2021</b>
<i>(in thousands)</i>	<b>\$</b>	<b>\$</b>
Service fee income from PLIC	2,481	4,137
Other fee income	3,618	3,765
<b>Total other income</b>	<b>6,099</b>	<b>7,902</b>

Service Fee income from PLIC relates to the 1% fee received by RIBM UK branch (2021: PLRL) from PLIC in relation to GFS. RIBM UK branch (2021: PLRL) recognizes a fee income which is considered to be the stand-alone transaction price for acquisition related activities it performs. See note 15 for further details on transactions with affiliates.

Other fee income consists of leaders fees which are due to RIBM UK branch (2021: PLRL) as it holds a credit facility on behalf of some counterparties as well as fee income on deposit accounted business and fee income related to collateral arrangements.

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

### 13. INCOME TAXES

The benefit (provision) for income taxes is as follows:

<b>Year ended December 31:</b>	<b>2022</b>	<b>2021</b>
<i>(in thousands)</i>	<b>\$</b>	<b>\$</b>
Current:		
Canada	(1,508)	2,432

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

### 13. INCOME TAXES (continued)

The Company's effective tax rate differs from its statutory tax rate in Bermuda due to tax effects attributable to the statutory rates in other jurisdictions where the Company operates. The net deferred tax liability is comprised of the following tax effected temporary differences:

<b>As of December 31:</b>	<b>2022</b>	<b>2021</b>
<i>(in thousands)</i>	<b>\$</b>	<b>\$</b>
Deferred tax assets:		
Tax net operating loss carryforwards	112,386	185,341
Policyholder reserves	191,076	90,402
Investments including derivatives	—	1,490
Other	14,950	2,557
<b>Total deferred tax assets before valuation allowance</b>	<b>318,412</b>	<b>279,790</b>
Valuation allowance adjustment	(94,701)	(104,038)
<b>Total deferred tax assets after valuation allowance</b>	<b>223,711</b>	<b>175,752</b>
Deferred tax liabilities:		
Policyholder reserves	(25,230)	(45,324)
Deferred acquisition costs	(133,913)	(173,950)
Deferred compensation	(978)	—
Other	0	(2,628)
<b>Total deferred tax liabilities</b>	<b>(160,121)</b>	<b>(221,902)</b>
<b>Net deferred tax asset/(liability) from operations</b>	<b>63,590</b>	<b>(46,150)</b>
Unrealized gain on securities available for sale	1,547	(170)
Other adjustments	0	(710)
<b>Net deferred tax liability</b>	<b>65,137</b>	<b>(47,030)</b>

The Company has \$265.5 million (2021: \$343.6 million) of Australian loss carryovers that do not expire. Australian tax loss carryovers have not been recognized as a deferred tax asset on the Consolidated Statements of Financial Condition as there is insufficient evidence that they will be realized through projected future taxable income.

The Company has \$150.8 million of UK loss carryovers that do not expire in RIBM UK Branch as at December 31, 2022. The UK loss carryovers are recognized as a deferred tax asset on the Consolidated Statements of Financial Condition.

There are \$26.2 million (2021: \$29.6 million) of South Korea loss carryovers that expire between December 31, 2025 and December 31, 2031.

The Company has \$11.2 million of Singapore loss carryovers in RIBM Singapore branch that do not expire. Singapore tax loss carryovers have not been recognized as a deferred tax asset on the Consolidated Statements of Financial Condition as there is insufficient evidence that they will be realized through projected future taxable income.

The Company operates in multiple jurisdictions and is thus subject to tax audits and examinations from various tax authorities in the normal course of business. Each entity's tax returns remain subject to examination until either audits are completed, or the relevant statute of limitation expires.

### 15. TRANSACTIONS WITH AFFILIATES (continued)

Below are the descriptions of the transactions with affiliates:

#### **(a) REINSURANCE AGREEMENTS**

PLRL Canada branch and RIBM UK branch (previously PLRL) have retrocession contracts with PLIC for certain reinsurance business. The amount due to affiliates balance consists of accrued premiums and commissions, retrocession recoverables, deposits due to and from PLIC, guarantee fees charged to PLRL Canada branch and RIBM UK branch (previously PLRL) by PLIC, and outstanding balances on the quarterly PLIC statement. The transactional amounts relating to this agreement are recognized in the Consolidated Statements of Operations in the net written premiums, claims and other policy benefits, as well as acquisition costs and other insurance expenses. The agreement also generates Consolidated Statements of Financial Position items that are recognized in reinsurance receivables, funds withheld, other assets and reinsurance payable to affiliates. The amount impacting the primary statements has been outlined in the related parties table below. On January 1, 2022, the PLRL to PLIC retrocession contract transferred from PLRL to the RIBM UK branch by way of the Part VII.

PLRL had an outwards reinsurance arrangement in place with RIBM that was novated from PLRL to RIBM on January 1, 2022. Subsequently on January 1, 2022, the retrocession was recaptured. RIBM (previously PLRL) retrocedes excess of loss on a small amount of protection business as part of a retrocession pool. RIBM (previously PLRL) further retrocedes a share of risk on certain mortality policies. This retrocession arrangement is based on arm's length commercial terms and conditions. The transactional amounts relating to this agreement are recognized in the Consolidated Statements of Operations in the net written premiums, claims and other policy benefits, as well as acquisition costs and other insurance expenses. The agreement also generates Consolidated Statements of Financial Position items that are recognized in reinsurance receivables, other assets, other liabilities and reinsurance payable to affiliates. The amount impacting the primary statements has been outlined in the related parties table below. On January 1, 2022, this contract was novated from PLRL to the RIBM UK branch.

In 2021, when the first GFS transactions were written into PLRL, the business was 100% retroceded from PLRL to PLIC (the "2021 Structure"). As PLRL bore no insurance risk, GFS business was accounted for under the deposit method under this arrangement and this has remained the case following the transfer of all this GFS business from PLRL to RIBM UK Branch.

The most significant impact on the Consolidated Financial Statements under this transaction structure arises from fee income payable to the Company from PLIC, which is paid in advance as each contract incepts and is unwound annually as the fee is earned.

In 2022, there was a transaction written under the 2021 structure (i.e. written into RIBM UK Branch) and transactions written directly into the Company's core rather than into a branch, with insurance risk being retained. As the Company retains insurance risk, insurance accounting will be applied under the new structure.

#### **(b) PROMISSORY NOTES**

On September 23, 2021, RIBM received a 1-year term promissory note of \$100 million from PLIC. There was an initial draw down of \$70 million, which was repayable as on September 30, 2022. Interest on the loan was calculated at a fixed rate of 0.7% on the drawn amount and 0.2% on the undrawn facility. The total interest paid for the year ended December 31, 2022 was \$0.2 million (2021: \$0.1 million), with an undrawn fee of \$0.02 million. This amount was fully repaid and the note was cancelled on May 6, 2022.

Expenses associated with the promissory note, such as interest and undrawn fee, are included in the operating expenses on the Consolidated Statements of Operations.

### 15. TRANSACTIONS WITH AFFILIATES (continued)

#### **(c) GUARANTEE ARRANGEMENTS**

PLC and PLIC, wholly owned subsidiaries of PMHC, provide guarantees to RIBM, PLRA and PLRL for the performance of its non-affiliate reinsurance obligations. The PLIC guarantee is secondary to the agreement provided by PLC and will only be triggered in the event of non-performance by PLC.

The Company pays fees to PLC and PLIC for these guarantees which are settled on an annual basis and are recognized under operating expenses in the Consolidated Statements of Operations. The guarantee arrangements have an indefinite term.

Effective January 1, 2022, RIBM became the primary borrower under the MUFG term loan and its obligations under the loan are guaranteed by PLC. RIBM pays PLIC a guarantee fee of 0.7% on the loan amount.

#### **(d) ANCILLARY OWN FUNDS**

A share subscription agreement was entered into by RIBM, RGBM, PLRH LLC and PLC in relation to an Ancillary Own Fund arrangement ("AOF"), which became effective January 1, 2022 (the "SSA"). RIBM received approval from the BMA for the arrangement to the amount of \$230 million effective from January 1, 2022. The arrangement represents unpaid shares which can be recognized as Tier 2 capital in the BMA Capital and Solvency Return.

Under the SSA, RIBM may, on demand, require that PLC procures that RGBM subscribes for up to 230 million shares in RIBM. If triggered, PLC shall make an advance to PLRH LLC which PLRH LLC shall use to subscribe for shares in RGBM of the same amount. If RIBM breaches minimum solvency requirements, it must exercise its rights under the SSA. RGBM will then in turn be required to subscribe for an equivalent amount of shares in RIBM. RIBM also entered into a fee letter with PLC relating to the payment of fees by RIBM to PLC in consideration of the obligations to be entered into by PLC under the SSA. The annual fee is calculated as 0.7% of the total unpaid shares issued.

On January 1, 2022, the PLRL AOF arrangement (which involved £165 million (\$222 million) unpaid shares issued to PLC) was released and corresponding unpaid issues shares were cancelled on January 20, 2022.

#### **(e) SERVICE AGREEMENTS**

PLRA and RIBM have support service agreements with Pacific Life Re Services Limited ("PLRS") and Pacific Life Services Bermuda Limited ("RSBM"). The services provided by PLRS and RSBM include management, IT Infrastructure and administrative services.

RIBM has a support service agreement with Pacific Life Re Services Singapore Pte. Limited ("RSSG"). The services provided include tenancy, management, finance and administrative services.

PLRL has a support service agreement with Pacific Services Canada Limited ("PSCL"). The services provided include tenancy, management, finance and administrative services.

PLRA has a support services agreement with PSCL under which it is charged for selected research and development services.

UnderwriteMe Australia Pty Limited ("UMAL") has entered into a support services agreement with PLRA. The services provided by PLRA include tenancy, management, finance, legal and administration services. PLRA also recharged amounts to UnderwriteMe Technology Solutions Limited.

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

### 15. TRANSACTIONS WITH AFFILIATES (continued)

PLRH LLC has an agreement in place with PLRA to reimburse costs directly related to Project Valentine.

All service agreement intercompany transactions are settled on a monthly basis.

#### (f) GROUP RELIEF

When unused tax losses are transferred to the Company from another group company, the Company makes a payment in cash that is equal to the amount of the tax losses surrendered.

### 16. TRANSFER OF ENTITIES UNDER COMMON CONTROL

On January 1, 2021 the entire share capital of PLRH (and therefore, indirectly, the entire share capital of PLRH's subsidiary, PLRL) was contributed to RGBM from its parent company, PLRH LLC. On July 1, 2021 the entire share capital of PLRH was contributed from RGBM to RIBM.

PLRL, a wholly owned direct subsidiary of PLRH, is an international reinsurance company registered in the United Kingdom and regulated and authorized by the Prudential Regulatory Authority and the Financial Conduct Authority. Until January 1, 2022, PLRL wrote life reinsurance business in Europe, Asia, and Canada and provided retrocession services to PLRA. From January 1, 2022 PLRL only writes business in South Korea and Canada. This business was transferred to RIBM on January 1, 2023, and from that date, PLRL no longer writes life reinsurance business.

### 17. COMMITMENTS AND CONTINGENCIES

#### COMMITMENTS

The Company leases office facilities in Australia and South Korea under various operating leases, which in most, but not all cases, are non-cancellable. Rent expense, which is included in operating and other expenses, in connection with these leases was \$1.6 million for the year ended December 31, 2022 (2021: \$1.7 million). Aggregate minimum future office lease commitments are as follows:

<b>Years ended December 31, 2022:</b>	
<i>(in thousands)</i>	
	<b>\$</b>
Aggregate minimum future office lease commitments:	
2023	2,148
2024	2,388
2025	1,383
2026	905
2027	883
2028+ and thereafter	2,503
<b>Total</b>	<b>10,210</b>

# Pacific Life Re International Limited

## Notes to Consolidated Financial Statements

### 17. COMMITMENTS AND CONTINGENCIES (continued)

#### LETTERS OF CREDIT

On June 29, 2017, the Company entered into a revolving bond facility of £100 million (\$135.3 million) with Australia and New Zealand Banking Group Limited ("ANZ"), expiring June 30, 2022. On June 30, 2017, ANZ issued a letter of credit pursuant to this facility for £50 million (\$67.6 million) to Rothesay Life with a maturity date of June 30, 2022. The facility was transferred across from PLRL to RIBM UK branch as part of the Part VII transfers. On June 29, 2022, the letter of credit was reduced from £50 million (\$67.6 million) to £40 million (\$54.1 million), the expiry date was extended to June 30, 2027, and the letter of credit was transferred from the expiring 2017 facility into a 2022 renewed and amended facility with the same bank.

#### PLEDGED ASSETS

As general and continuing collateral security covering obligations under the guidelines by Office of the Superintendent of Financial Institution (OSFI). PLRL Canada Branch manages its capital to meet these requirements and to maintain an optimal capital structure. Should the fair value of pledged assets fall below the minimum value, PLRL Canada Branch will promptly deposit additional assets into the account to cover any shortfall. The assets are included in the investments (restricted) and restricted cash on the Consolidated Statements of Financial Operations. The restricted assets are held by a custodian in Canada.

As general and continuing collateral security covering obligations under reinsurance arrangements held with certain counterparties, RIBM (previously PLRL) has pledged assets to the benefit of these counterparties. RIBM (previously PLRL) ensures that the carrying value of pledged assets is greater than or equal to the minimum value as per the reinsurance security agreements on a regular basis. Should the carrying value fall below the minimum value, RIBM (previously PLRL) deposits additional assets to cover any shortfall. The assets are included in investments and restricted cash on the Consolidated Statement of Financial Condition. Assets are held by a custodian and the amounts pledged are presented in the table below.

<b>Year ended December 31:</b>	<b>2022</b>	<b>2021</b>
<i>(in thousands)</i>	<b>\$</b>	<b>\$</b>
Pledged assets		
Fixed maturity securities	738,567	351,007
Cash	20,281	5,272
Other restricted cash	376	11,583
Total restricted investments	738,567	351,007
Total restricted cash	20,657	16,855
<b>Total restricted assets</b>	<b>759,224</b>	<b>367,862</b>
<b>Total as a percentage of investable assets</b>	<b>31%</b>	<b>12%</b>

### 18. SUBSEQUENT EVENTS

On January 1, 2023, the PLRL Canada Branch business was transferred to the Canada Branch of RIBM by way of individual novation of treaties. Loan notes were issued by RIBM to PLRL as consideration for the Canada business transfers. On the same day the retrocession arrangement between PLRL Canada Branch and PLIC was recaptured.

On January 1, 2023, the majority of Canadian market reinsurance business in RGBM was transferred to RIBM Canada branch through novation of individual treaties.

On January 1, 2023, the PLRL Canada Branch business was transferred to the Canada Branch of RIBM by way of individual novation of treaties. Loan notes were issued by RIBM to PLRL as consideration for the Canada business transfers. On January 1, 2023, the majority of Canadian market reinsurance business in RGBM was transferred to RIBM Canada branch through novation of individual treaties. On the same day the retrocession arrangement between PLRL Canada Branch and PLIC was recaptured. Also on January 1, 2023, RIBM Canada branch set up two new 75% retrocession treaties with RGBM, one for Protection and the other for Longevity business.

On January 1, 2023, the PLRL Korea Branch business was transferred to the Korea Branch of RIBM by way of a South Korean law portfolio transfer for cash.

Having transferred all the business out of PLRL during the period, PLRL has approved and commenced the process of cancelling all of its regulatory permissions in the legal entity in UK and its branches. (The Singapore Branch of PLRL was deauthorized on June 8, 2022.) It is expected that PLRL will be fully deauthorized and then subsequently wound up in the first half of 2024.

PLRH is expected to be wound up in the first half of 2024 alongside PLRL.

On March 20, 2023, RIBM declared distributions of £9 million (\$11 million) and \$40 million respectively to RGBM. These were settled on March 28, 2023 and March 22, 2023 respectively.

The Pacific Life group has been designated an Internationally Active Insurance Group (IAIG) with effect from February 5, 2023. The designation has been made by the Nebraska Department of Insurance (Nebraska DOI) under the rules of the International Association of Insurance Supervisors.
