Mozart Insurance, Ltd. (Incorporated in Bermuda)

Financial Statements December 31, 2022 (expressed in U.S. dollars)

Independent auditor's report

To the Board of Directors and Shareholder of Mozart Insurance, Ltd.

Our opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Mozart Insurance, Ltd. (the Company) as at December 31, 2022, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

What we have audited

The Company's financial statements comprise:

- the statement of financial position as at December 31, 2022;
- the statement of comprehensive income for the year then ended;
- the statement of changes in shareholder's equity for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code) and the ethical requirements of the Chartered Professional Accountants of Bermuda Rules of Professional Conduct (CPA Bermuda Rules) that are relevant to our audit of the financial statements in Bermuda. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the ethical requirements of the CPA Bermuda Rules.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
 a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
 involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

• Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

	Cash and cash equivalents at end of year	3,308,874	534,742

Notes to Financial Statements

December 31, 2022

(expressed in U.S. dollars)

1. The Company

Mozart Insurance Ltd. ("the Company") was incorporated under the laws of Bermuda on July 12, 2019 and has its place of business in Bermuda. On September 26, 2019, the Company registered as a Class 3A insurer under The Insurance Act 1978 (Bermuda) amendments thereto and related regulations ("The Insurance Act"). The address of the Company's registered office is Crawford House, 50 Cedar Avenue, Hamilton HM11, Bermuda.

The Company is owned by Newport International Limited, a company incorporated and registered in Bermuda. The ultimate beneficial owners of the Company are Lilian Gutt de Mishaan (75%) and Alberto Mishaan Gutt (25%). The Company assumed the business previously written in a Bermuda segregated account company managed by Independent Risk Solutions Ltd. (IRSL), a Bermuda registered company.

Effective March 1, 2017, the Bermuda segregated account entered into a reinsurance agreement with Ocean Re. Under the agreement, the segregated account ultimately provided excess of loss reinsurance under a treaty covering multiple lines of business and will take the form of a non-proportional excess of loss policy. Risks covered include Surety Bonds, General Liability, Group Life and Property. The segregated account cancelled its agreement with Ocean Re as of February 28, 2018 and was commuted on July 22, 2021, then entered into a reinsurance agreement with Hanover Re. This agreement covered the same lines of business as they had with Ocean Re and was effective as of May 15, 2018. The program was renewed on May 15, 2019 until May 14, 2020. The Hannover Re contract was commuted on November 22, 2021.

The Company chose Munich Re as reinsurer for the new period policy effective as of May 15, 2020 until June 30, 2021 and was extended until December 31, 2021. The table below provides details with respect to the lines of business and limits:

Contract Line	Contract Type	Currency	Contract Limit in COP	Signed Line	Line%	Limit per Loss in COP
Motor	QS	COP	3,250,000,000	39%	100%	1,267,500,000
TPL Auto	QS	COP	4,000,000,000	32.5%	100%	1,300,000,000
Lease	QS	COP	6,000,000,000	18%	100%	1,080,000,000
Personal Accidents	QS	COP	300,000,000	48%	100%	144,000,000

The 2022 Munich Re contract was for the period January to December 31, 2022 and had the following lines of business and limits:

Contract Line	Contract Type	Currency	Contract Limit in COP	Signed Line	Line%	Limit per Loss in COP
Motor	QS	COP	4,800,000,000	39%	100%	1,872,000,000
TPL Auto	QS	COP	7,500,000,000	32.5%	100%	2,437,500,000
Lease	QS	COP	6,000,000,000	18%	100%	1,080,000,000
Personal Accidents	QS	COP	500,000,000	48%	100%	240,000,000

Notes to Financial Statements **December 31, 2022**

(expressed in U.S. dollars)

2. Summary of significant accounting policies

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented.

(a) Statement of compliance

The Company's financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and interpretations as issued by the International Accounting Standards Board (IASB). The statement of financial position is presented in order of liquidity.

The financial statements were authorised for issue by the Board of Directors on April 28, 2023.

(b) Basis of presentation

The Company's financial statements have been prepared under the historical cost basis, except for investments, which are recorded at fair value, and reserves for losses and loss expenses, which are estimated.

The Company has prepared its financial statements in conformity with IFRS 4 "Insurance Contracts", effective January 1, 2006 and believes it is in compliance with the requirements as prescribed by the IASB in its first phase of the standard. IFRS 4 is an interim measure until the IASB completes the second phase of its project on insurance contracts.

The preparation of financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that may affect the application of accounting polices and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates.

Estimates are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which estimates are revised and in any future periods affected.

Certain comparative figures have been reclassified to conform to the current year's presentation and disclosure.

(c) Functional currency

The financial statements are presented in United States dollars, which is the Company's functional currency.

(d) Translation of foreign currencies

Monetary assets and liabilities originating in other currencies are translated into United States dollars (the functional currency) at the rates of exchange in effect at the reporting date. Non-monetary items originating in other currencies are translated into United States dollars at the rates of exchange in effect at the dates when the transactions occurred. Revenue and expense items are translated into United States dollars at the rate of exchange prevailing at the time of the transaction. The resulting exchange gains or losses are recognized in net income. For the year ended, December 31, 2022, the statement of comprehensive income reflects foreign currency transaction (loss) of \$(1,157,410), for 2021 \$(470,415).

(e) Premiums assumed and acquisition cost

Premiums are assumed on an accrual basis. Premiums assumed are earned on a pro-rata basis over the term of the policies. As a COVID-19 impact (Note 16) the transport sector in Colombia changed in their financial dynamics, therefore Mozart received premiums from the Motor and TPL Auto lines on a monthly and annual basis using the following split which were used on a consistent basis during 2022:

Notes to Financial Statements

December 31, 2022

(expressed in U.S. dollars)

Line of business	% Monthly	% Annually
Auto Motor	85%	15%
Lease	0%	100%
Personal Accident	0%	100%
TPL Motor	60%	40%

Premium earnings based on the above allocation is as follows:

		Monthly			
Line of business	Q1	Q2	Q3	Q4	Total
Auto Motor	575,133	523,142	486,841	661,815	2,246,932
Lease	0	0	0	0	0

TPL Motor	1,298,887	1,527,858	1,210,571	1,497,019	5,534,335		
	1,725,557	2,053,180	1,693,953	2,084,148	7,556,838		

Notes to Financial Statements **December 31, 2022**

(expressed in U.S. dollars)

Annually							
Line of business	Q1	Q2	Q3	Q4	Total		
Auto Motor	42,198	51,955	47,807	58,068	200,028		
Lease	185,916	174,255	215,447	206,120	781,738		
Personal Accident	55,975	55,500	95,039	96,199	302,713		
TPL Motor	669,123	787,079	623,628	771,192	2,851,021		
	953,213	1,068,788	981,921	1,131,578	4,135,500		

Premium adjustments are recorded in the period in which they are known or paid. Commissions and other underwriting expenses relating to earned premiums are expensed over the policy periods.

(f) Provision for losses and loss expenses

Losses and loss expenses paid are recorded as reported. The provision for losses and loss expenses comprises estimates for known losses and loss expenses received from the ceding insurance companies plus a provision for losses incurred but not reported. The provisions are necessarily estimates and losses may ultimately be settled for a greater or lesser amount than that recorded in the financial statements. Any adjustments thereto are reflected in earnings in the period in which they become known.

(g) Cash and cash equivalents

The Company considers all highly liquid debt instruments with a maturity of 90 days or less at the date of purchase to be cash equivalents.

(h) Investments

While a number of new or amended IFRS standards have recently been issued, there are no standards issued that have had a material impact on the Company. The Company has adopted IFRS 9, Financial Instruments for the financial year commencing September 26, 2019.

Financial Instruments Classification and measurement of financial assets and financial liabilities

IFRS 9 provides three principal classification categories for financial assets: measure at amortized cost; fair value through other comprehensive income or fair value through profit and loss. The classification of financial assets under IFRS 9 is generally based on the business model which a financial asset is managed and its contractual cash flow characteristics.

The Company has assessed the business model to the portfolio of financial assets held and determined that financial assets are managed and evaluated based upon their fair value performance and held for trading and thereby measured at fair value through profit or loss as financial assets are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets. The Company therefore recognizes financial assets at fair market value through profit or loss with subsequent measurement at fair market value through profit or loss with any change in the fair market value reported in investment income in the statement of comprehensive income. The fair market value is provided by JP Morgan as custodian.

Notes to Financial Statements

December 31, 2022

(expressed in U.S. dollars)

Impairment

Under IFRS 9, investments are recorded at fair value through profit or loss, and therefore the new impairment credit model of IFRS 9 is not applicable. Furthermore, insurance and reinsurance debtors are classified as insurance assets under IFRS 4 and are also excluded from the IFRS 9 impairment model.

Realized gains and losses on sales of marketable securities are included in income on the actual cost basis.

(i) Other financial assets

The Company's management assess at each reporting date whether there is objective evidence that a financial asset is impaired. If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying value and the present value of estimated future cash flows. The carrying value of the asset is reduced through the use of an allowance account and the amount of the loss is recognized in the statement of comprehensive income.

(j) Use of estimates

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. Although these estimates are based on management's best information of current events and conditions, actual results could differ from these estimates. The areas involving a higher degree of judgment and or complexity, or areas where assumptions and estimates are significant to the financial statements are discussed below:

Claims reserves

The provision for claims is an estimate made by management using reported losses notified by the ceding companies plus an estimate for losses incurred but not reported based on actuarial techniques using the past experience of the Company. All provisions are periodically reviewed and evaluated in the light of emerging claim experience and changing circumstances. It is reasonably possible that changes in future conditions could require a change in the amount estimated. The resulting changes in estimates of the ultimate liability are recorded as incurred losses in the current period.

(k) Offsetting financial instruments

Financial assets and liabilities are offset, and the net amount reported in the statement of financial position only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

(I) New Standards, interpretations and amendments to published standards that have been adopted by the Company

New and revised IFRSs in issue-adopted

No new standards to adopt in the current financial year.

New and revised IFRSs in issue-Not yet adopted

Notes to Financial Statements **December 31, 2022**

(expressed in U.S. dollars)

IFRS 17 Insurance Contracts

In May 2018, the IASB published IFRS 17 Insurance Contracts, a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, IFRS 17 will replace IFRS 4 that was issued in 2005. IFRS 17 applies to all types of insurance contracts as well as to certain guarantees and financial instruments with discretionary participation features. In contrast to the requirements in IFRS 4, which are largely based on grandfathering of previous local accounting policies, IFRS 17 provides a comprehensive and consistent approach to insurance contracts. The core of IFRS 17 is the general model, supplemented by a specific adaption for contracts with direct participation features (the variable fee approach) and a simplified approach (the premium allocation approach) mainly for short-duration contracts.

The main features of the new accounting model for insurance contracts are, as follows: the measurement of the present value of future cash flows incorporating an explicit risk adjustment and re-measured every reporting period (the fulfilment cash flows); a contractual service margin that is equal and opposite to any day one gain in the fulfilment cash flows of a group of contracts, representing the unearned profit of the insurance contracts to be recognised in profit or loss over the service period (coverage period); the presentation of insurance revenue and insurance service expenses in the statement of comprehensive income based on the concept of insurance services provided during the period; and extensive disclosures to provide information on the recognised amounts from insurance contracts and the nature and extent of risks arising from these contracts.

The impact of the adoption of IFRS 17 has yet to be fully assessed by the Company. The measurement and presentation of the standard scope will be determined during 2023. This standard applies to annual reporting periods beginning on or after 1 January 2023.

3. Cash and cash equivalents

The Company has the cash and equivalents as follows:

	2022 \$	2021 \$
Butterfield bank J P Morgan TD	614,888 2,693,985	534,742
	3,308,873	534,742

4. Investments

The Company has investments in multiple financial instruments such as fixed income and equities. In addition, the Company has invested into a private company as follows:

The Company entered into an Assumption and Assignment Agreement on October 3, 2019 with respect to an investment in 340 Biscayne Borrower. The Company's investment was a loan but on 2020 was reclassified as investments with a fair value. The investment was sold in January 2022 for a total value of \$819,148 to the Company. The amount of \$393,523 was received in January 2022 and the balance of \$425,625 was received in July 2022.

The Company's investments are managed by JP Morgan and are distributed in two sections: funds in US mainly on Lumyna, Ishares, HSBC Global funds and Blackrock Global Funds; and Equities and ETFs in Ireland, Luxembourg, United Kingdom and US mainly on BlackRock, Invesco, Ishares and Xtrackers.

Notes to Financial Statements

December 31, 2022

(expressed in U.S. dollars)

	2022	2	2021	
	Cost \$	Carrying value \$	Cost \$	Carrying value \$
Equity and Exchange Traded Funds ("ETF")	9,615,277	8,729,796	8,285,133	8,632,350
Private companies			624,678	805,552
_	9,615,277	8,729,796	8,909,811_	9,437,902

5. Investment and interest income

Net investment income on investments was derived from the following:

	2022 \$	2021 \$
	•	•
Net unrealized (loss) gain	(1,232,697)	664,455
Net realized (loss) gain	(139,077)	(41,703)
Dividend income	13,473	20,992
Interest on loans	-	20,902
Interest JP Morgan	27,836	4,015
Interest Hannover Re	-	103,286
Interest in related parties	_	28,025
Total	(1,330,465)	799,972

6. Fair value measurement

The Company measures fair value using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy gives the highest priority to quoted prices in active markets (Level 1) and the lowest priority to fair values derived from unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 - Quoted prices for instruments in active markets.

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

Level 3 - Model derived valuations in which one or more significant inputs or significant value drivers are unobservable.

The level in the fair value hierarchy within which the fair value measurement in its entirety falls shall be determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The Company determined that securities classified as Level 1 would include U.S. government and exchange traded securities and derivative financial instruments that have quoted prices on a recognized exchange. Level 2 would include corporate debt securities. The fair value of these assets is based on the prices obtained by both the investment manager and custodian who obtain market data from numerous independent pricing sources.

Notes to Financial Statements **December 31, 2022**

(expressed in U.S. dollars)

A review of the fair value hierarchy classifications is conducted on an ongoing basis. Changes in the observability of valuation inputs may result in a reclassification for certain financial assets and liabilities.

Fair value hierarchy

The following summary presents the analysis of the Company's financial instruments by level of input for determining fair value as indicated on note 3 on significant accounting policies:

	Financial Instruments	•		
	Total \$_	Level 1 \$_	Level 2 \$_	Level 3
FVPL				
Equity and ETF	8,729,796	8,729,796	<u> </u>	
	8,729,796	8,729,796		
	Financial Instruments	at December 31, 20	21	
	Total	Level 1	Level 2	Level 3
	\$	\$	\$	\$
FVPL				

8,632,350	8,632,350	-	-
805,552	<u> </u>		805,552
9,437,902	8,632,350		805,552
	805,552	805,552 -	805,552

Level 3 movement

The Company entered into an Assumption and Assignment Agreement on October 3, 2019 with respect to an investment in 340 Biscayne Borrower. The Company's investment was a loan but on 2020 was reclassified as investments with a fair value of \$805,552 (2020 - \$478,505) as at December 31, 2021. The investment does not have any interest rate attached to it. The parties agreed to share any gain on the property sale (after the investment has been repaid) in a fixed proportion between the investors and investment manager, the proportional split is 80% to investors and 20% to Kawa Capital. The investment was sold in January 2022 for a total value of \$805,552 to the Company. The amount of \$393,523 was received in February 2022 and the balance of \$416,587 was received in April 2022.

7. Insurance balances receivable

Reinsurance balances receivable are due from Munich Re. The periods of the policies written with Munich Re are from January. 2021 to December 31, 2022.

,,,	2022 \$	2021 \$
Munich	6,138,327	6,021,774
	6, 138,327	6,021,774

Notes to Financial Statements

December 31, 2022

(expressed in U.S. dollars)

8. Provision for losses and loss expenses

The analysis of liabilities under insurance contracts as at December 31, 2022 and 2021 is as follows:

Lines of business		
	2022 \$	2021 \$
Auto TPL Auto Motor Lease Personal Accidents	7,101,024 448,979 473,649 52,623	4,773,538 408,394 566,025 59,248
1 CISCHAI ACCIACING	8,076,275	5,807,205
Provision for losses and loss expenses comprises:	2022 \$	2021 \$
Provision for reported losses and loss expenses Provision for losses incurred but not reported	2,424,275 5,652,000	1,063,205 4,744,000
Provision for loss expenses	8,076,275	5,807,205
Reconciliation of provision for losses and loss expenses		
Net loss and loss expense provisions at beginning of year	5,807,205	4,183,273
Net claims incurred for the period related to: Current year Prior year	3,793,854 1,261,034	6,095,186 (1,850,094)
	5,054,888	4,245,092
Net paid claims for the period related to: Current year Prior year	(982,200) (1,803,618)	1,907,836 713,324
	(2,785,818)	2,621,160
Net loss and loss expense provisions at end of year Losses recoverable	8,076,275	5,807,205
Gross loss and loss expense provision at end of year	8,076,275	5,807,205

The favourable development in 2022 of \$1,261,035 (unfavorable 2021 (\$1,850,094)) relating to prior period was due to the development on losses reported to the Company for claims prior to December 31, 2022. The development relating to prior period represents the on-going settlement of claims which are sometimes settled for amounts either more or less than originally reserved.

Notes to Financial Statements **December 31, 2022**

(expressed in U.S. dollars)

The table below illustrate how the Company's estimate of ultimate losses (i.e. the aggregate of paid losses, held case reserves and IBNR reserves) for each policy year has changed at successive year-ends. The tables analyse the loss and loss expense reserves appearing in the statement of financial position at December 31, 2022.

	2020	2021	2022	As at December 31, 2022
Estimate of ultimate claims				
- At end of year	807,381	2,723,994	3,020,789	3,020,789
- One year later	4,003,227	4,369,388		4,369,388
- Two years later	2,837,204			3,837,204
Current estimate of ultimate claims Less: Cumulative payments to date				10,227,380
(from inception to date)				-2,151,105
Liability recognised in the Statement of Financial				
Position				8,076,275

The cumulative payments inception to date are for \$2,151,105 and the claims and claims expenses paid during the year for \$2,785,818 are including the 12% expenses incurred in Auto TLP (\$1,291,306.07). The development tables are based on Mozart's historical claims experience. In addition, Deloitte used a regional Loss Development Factor (LDF) benchmark for companies that write third-party liability automotive insurance in South America to compare to the experience seen through the original insurance company losses.

9. Share Capital and contributed surplus

Newport International Limited capitalized the Company upon incorporation by subscribing for 120,000 shares of par value \$1 each. On October 1, 2019, the Company received contributed surplus in the amount of \$6,497,324 resulting from agreements transferring assets and liabilities into the Company from a Bermuda segregated account previously held in Independent Risk Solutions Ltd.

10. Management of insurance and financial risk

Financial risk management objectives and policies

The Company has a comprehensive risk management framework to monitor, evaluate and manage the risks assumed in conducting its business. The Company manages these risks using extensive risk management policies and practices. The risks that arise from transacting financial instruments include credit risk, market risk and liquidity risk. These risks may be caused by factors specific to an individual instrument or factors affecting all instruments traded in the market.

Risk management objectives and policies as they relate to the specific financial risks are as follows:

Concentration of credit risk

The Company is party to financial instruments with concentration of credit risk. These financial instruments consist principally of cash and cash equivalents and marketable securities. As of December 31, 2022 and 2021, cash and cash equivalents were held with financial institutions in the United States and Bermuda, that the Company

Notes to Financial Statements

December 31, 2022

(expressed in U.S. dollars)

considers high quality. The Company does not believe there are significant risks associated with these risk concentrations.

The Company's investment portfolio is also managed by external managers in the United States. The Company minimizes the risk associated with these concentrations by adhering to a conservative investment strategy.

Credit risk

Credit risk is the risk of financial loss resulting from the failure of debtors to make payments of interest and/or principal when due. The Company is exposed to credit risk principally through its cash and cash equivalents, financial assets and insurance balances receivable. Concentrations of credit risk arise from exposures to a single debtor or groups of debtors that have similar credit risk characteristics, such as debtors in the same geographic regions or in similar industries. The Company's maximum credit risk exposure is the carrying value of the assets net of any allowances for doubtful debts. Credit risk relating to financial assets at fair value through profit or loss is managed through monitoring of the issuer, industry and geographical diversification within the investment portfolio. The Company mitigates credit risk on its insurance balances receivable through detailed credit and underwriting policies and on-going monitoring of outstanding receivables.

Credit Rating

Credit ratings for investments held by the Company as at December 31, 2022 range from AAA to non-rated (2021 – A to non-rated) as set out by S&P, Fitch or Moody's (as available).

	2022 USD	2021 USD
AAA AA AA- A BBB BB	683,446 1,745,942 541,423 - 263,780 267,525	1,752,618 2,300,590 3,176,553 257,437 258,640
B+ NR	5,227,680 8,729,796	175,850 1,428,897 9,437,902

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk includes currency risk, interest rate risk and other price risks such as equity risk.

Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. At the balance sheet date, the Company did not have a material currency exposure related to financial instruments.

Notes to Financial Statements **December 31, 2022**

(expressed in U.S. dollars)

Interest rate risk

Interest rate risk is the potential for financial loss arising from changes in interest rates. The Company actively manages its interest rate exposure with the objective of enhancing net investment income within established risk tolerances and Board approved investment policies. The Company is exposed to interest rate price risk on monetary assets that have a fixed interest rate. During periods of rising interest rates, the market value of the existing fixed interest securities will generally decrease and realized gains on fixed income securities will likely be reduced. The reverse is true during periods of declining interest rates.

Liquidity risk

Liquidity risk is the risk of having insufficient cash resources to meet cash outflow commitments as they fall due. Liquidity risk arises from general business activities and in the course of managing the assets and liabilities. There is a risk of loss to the extent that the sale of a security prior to maturity is required to provide liquidity to satisfy claims and other cash outflows. The liquidity requirements of the Company's business have been met primarily by funds generated by operations, asset maturities and income and other returns received on securities. The Company generally maintains a conservative liquidity position that exceeds anticipated obligations. The Company has policies to limit and monitor its exposure to individual issuers and to ensure that assets and liabilities are broadly matched in terms of their duration. Management believes the Company has sufficient funds to meet its liabilities and to satisfy regulatory capital requirements as at December 31, 2022 due to the cash and cash equivalents held by the Company exceeding the total liabilities recognized on the statement of financial position.

(a) Maturity analysis for insurance liabilities is analyzed in the tables below.

	Carrying amount 2022	0-1 year	1-2 years
Provision for claims Unearned premiums	8,076,275 1,959,647	3,405,477 1,959,647	6,301,891
	10,035,922	5,365,124	6,301,891
	Carrying amount 2021	0-1 year	1-2 years
Provision for claims Unearned premiums	5,807,205 1,628,097	1,925,587 1,628,097	3,881,619
	7,435,302	3,553,684	3,881,619

Insurance risk

The risk under any one insurance contract is the possibility that the insured event occurs and the uncertainty of the amount of the resulting claim. By the very nature of an insurance contract, this risk is random and therefore unpredictable. For a portfolio of insurance contracts where the theory of probability is applied to pricing and provisioning, the principal risk that the Company faces under its insurance contracts is that the actual claims payments exceed the carrying amount of the insurance liabilities. This could occur because the frequency or severity of claims is greater than estimated. Insurance events are random and the actual number and amount of claims will vary from year to year.

Notes to Financial Statements

December 31, 2022

(expressed in U.S. dollars)

(a) Concentration of insurance risk by line of business

Gross written premium

	2022 \$	2021 \$
Auto TPL	10,760,884	8,631,590
Auto Motor	2,682,307	2,307,637
Lease	1,050,186	786,078
Personal Accident	301,992	305,816
	14,795,369	12,031,121

(b) Concentration of insurance risk by geographical locations

The entire portfolio covers Colombia.

Fair Value

The following methods and assumptions were used by the Company in estimating fair value disclosures for financial instruments:

Cash and cash equivalents: Represents cash deposits held at financial institutions and short term highly liquid investments of sufficient credit quality that are readily convertible to known amounts of cash and have original maturities of 90 days or less. The carrying amounts reported in the Statement of financial position for these instruments approximate their fair values.

Financial assets at fair value through profit or loss: Are managed and evaluated based upon their fair value performance and held for trading and thereby measured at fair value through profit or loss. The fair value of these investments and other assets are disclosed in Note 6.

Other assets and liabilities: The fair value of insurance balances receivable, accrued interest, reinsurance balances payable, premiums received in advance and accounts payable and accrued expenses approximates their carrying value due to their relative short-term nature.

The estimates of fair values presented herein are subjective in nature and are not necessarily indicative of the amounts that the Company would actually realize in a current market exchange. However, any differences would not be expected to be material. Certain items such as deferred reinsurance premiums, deferred acquisition costs, outstanding loss reserve, prepayments and unearned premiums are excluded from fair value disclosure. Thus, the total fair value amounts cannot be aggregated to determine the underlying economic value of the Company.

11. Capital Management

The Company's capital consists of share capital, contributed surplus and retained earnings. The Company's primary objective when managing its capital is to ensure its ability to continue as a going concern. The Company manages its capital requirements in line with the results of operations. Actions to obtain an optimal capital structure may include additional contributions or capital subscriptions or payment of dividend to the shareholder.

12. General and administrative expenses

The following table analyses general and administrative expenses totaling \$820,513 (2021: \$715,547), which have been included in the statement of profit or loss:

Notes to Financial Statements

	820,513	715,547

13. Statutory requirements

The Company must at all times maintain a solvency margin and an enhanced capital requirement in accordance with the provisions of the Insurance Act, 1978 of Bermuda. Each year the Company is required to file with the Bermuda Monetary Authority a capital and solvency return within four months of its relevant financial year end (unless specifically extended).

The prescribed form of capital and solvency return comprises the insurer's Bermuda Solvency Capital Requirement ("BSCR") model, a schedule of fixed income investments by rating category, a schedule of net loss and loss expense provision by line of business, a schedule of premiums written by line of business, a schedule of risk management and a schedule of fixed income securities.

As a Class 3A insurer, the Company is required to maintain available statutory capital and surplus in an amount that is equal to or exceeds the target capital levels based on enhanced capital requirements ("ECR") calculated using the BSCR model. The BSCR model is a risk-based capital model introduced by the Authority that measurers risk and determines ECR and a target capital level (defined as 120% of the ECR) based on the Company's statutory financial statements. In circumstances where the Authority concludes that the Company's risk profile deviates significantly from the assumptions underlying the ECR or the Company's assessment of its management policies and practices, it may issue an order requiring that the Company adjust its ECR.

During the year ended and as of December 31, 2022, the Company met the target capital level required under the BSCR.

The Insurance Act mandates certain actions and filings with the Authority if the Company fails to meet and maintain its ECR or solvency margin, including the filing of a written report detailing the circumstances giving rise to the failure and the manner and time within which the insurer intends to rectify the failure. The Company is prohibited from declaring or paying a dividend if its statutory capital and surplus is less than its ECR, or if it is in breach of its solvency margin or minimum liquidity ratio, or if the declaration or payment of such dividend would cause such breach.

The Company is required by its license to maintain unconsolidated capital and surplus greater than a minimum statutory amount determined as the greater of a percentage of outstanding losses (net of reinsurance recoverable)

Notes to Financial Statements

December 31, 2022

(expressed in U.S. dollars)

or a given fraction of net written premiums. At December 31, 2022 and 2021, the Company met this requirement. Actual statutory capital and surplus is \$8,892,877 (2021- \$9,192,650).

The Company is also required to maintain a minimum liquidity ratio whereby the value of its unconsolidated relevant assets is not less than 75% of the amount of its unconsolidated relevant liabilities. At December 31, 2022, the Company was required to maintain relevant assets of approximately \$7,607,844 (2021 - \$5,636,344). At that date relevant assets were \$18,176,996 (2021 - \$15,994,418) and the minimum liquidity ratios were met for December 31, 2022 and 2021.

14. Related party transactions

Mozart Insurance Ltd, entered into a loan agreement with Newport International Limited (the Company's parent) on January 15, 2021 amounting to \$2,000,000. The loan term was until January 15, 2026 and carried an interest rate of 3%. In addition, the loan terms permitted the repayment of the loan at any time. On September 30, 2021 Mozart Insurance Ltd elected to settle the loan by way of a dividend declaration amounting to \$2,042,411 as approved by the Board of Directors.

The Company entered into a Service Level Agreement with Newport International in January 2021. The Service Level Agreements originally provided for the monthly fee of \$ 10,000 to be paid, the amount was changed to \$15,000 in November 2021. The Service Level Agreement indicates that the Service Provider (Newport International Limited) shall provide general management and administrative services on behalf of the Company.

15. Taxation

Under current Bermuda law the Company is not required to pay any taxes in Bermuda on either income or capital gains. The Company has received an undertaking from the Minister of Finance in Bermuda that in the event of any such taxes being imposed the Company will be exempted from taxation until the year 2035.

16. COVID-19

Since the outbreak of COVID-19 in the first quarter of 2020, global financial markets have experienced, and may continue to experience significant volatility and there are significant consequences for the global economy from travel and border restrictions, quarantines, supply chain disruptions, lower consumer demand and general market uncertainty. The extent and duration of the impact of COVID-19 on the global economy and the sectors in which the Company, its parent [and its policyholders] operate is uncertain at this time. Management, under the oversight of the Board of Directors, has performed an assessment of the potential effects of COVID-19 on the Company's operations and related financial performance. In the transport sector in Colombia a change was generated in the financial dynamics, therefore during 2021 Mozart received premiums from the Motor and TPL Auto lines on a monthly basis under the percentages reported in note 2. For 2022 the percentages changed base on the Colombian economic developments which increase the annually premiums received on Motor from 9% in 2021 to a 15% in 2022 and on TPL Auto from 34% 2021 to a 40% in 2022. The Company's continues to meet its statutory solvency and liquidity ratio requirements. As a result of this assessment management has concluded that the Company's financial performance has not been significantly impacted by the COVID-19 outbreak and it will continue to monitor the situation and any potential future impact on the Company.

17. Subsequent events

In preparing the financial statements, management evaluated subsequent events through April 28, 2023, which is the date that these financial statements are available to be issued.
